Teaching Children the Biblical View of Dinosaurs

University of Northwestern - St. Paul 3003 North Snelling, Roseville, MN, Totino Fine Arts Center, Room F2128 (Old F116) **For updates and more information, visit www.tccsa.tc**

Dinosaurs have captured the minds and imaginations of our children at every turn whether it be books, science classes, museums, cartoons or Hollywood movies. Unfortunately, the overwhelmingly prominent view of these amazing creatures is the secular humanist and evolutionary view which dates them as living millions of years ago prior to humans; thereby undermining a biblical worldview. In this talk, you will learn to teach children the biblical view of dinosaurs as well as help them spot the lies that are so often promoted about them.
