God's Promise to the Chinese in Two Versions

Mandarin version October 16

Richard Broadberry will be speaking in Mandarin.

English version October 17

Most of us will understand English much better.

7:30 PM, Totino Fine Arts Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville, MN

Richard Broadberry lives with his family in England but spent several years working in Taiwan and mainland China as a biomedical scientist. He is an internationally known author and speaker.

While in China he studied ancient Chinese writing including the oldest version known as Oracle Bone Characters. The written characters are made up of small pictographs with each one meaning something. Reading the meaning of each part of the combination tells a story. The stories in the characters may surprise you with their meaning. This talk will explain how the Chinese had to know of the flood and the God of the Bible when the characters were designed.

If you have friends who understand Mandarin Chinese, invite them to attend on Monday evening and if they want the English version bring them with you on Tuesday evening. All are welcome to either or both meetings.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

... autumn leaves? As summer comes to an end, the deciduous trees start preparing for winter. The key factor for starting this process is the decrease in the amount of sunlight. (A second factor is the cool weather). As the sunlight decreases, the abscission layer starts forming between the stem and the branch. The flow of water to the leaf and the flow of sugar out of the leaf begin to stop. Chlorophyll, which causes the leaves to be green, fades away which causes the hidden colors to show - orange or yellow. The red leaves are formed by the extra sugar that the leaf makes and cannot get out (due to the abscission layer). God could have made all deciduous tree leaves to turn from green to brown because there is no purpose for the reds, yellows or oranges, other than beauty. Why did He not make the tree leaves just wither away in drabness? God is a God who loves beauty; maybe God made autumn leaves beautiful just for the sheer joy it. As you look at this autumn's cacophony of colors - the reds, yellows and oranges - enjoy the beauty that God created, and thank Him.

TCCSA with your support has helped supply books to 20,000 students in Fiji? Earlier this year Bruce Malone and Carl Baugh delivered 20,000 copies of *Inspired Evidence* to this island nation. They spoke to 15,000 students and 13,000 made a decision for Christ. Your support made it possible for about 1,000 of those books to be delivered. Dr. Baugh, Bruce Malone and maybe the Von Vett's plan to return in February. Will you help supply more? Please pray that this need will be met soon.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
