CREATION BULLETIN

June 2024

Vol. 50, No. 6

God's Pharmacy

Tuesday June 18, 2024, 7:00 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

Don Slinger comes to us from Lake Elmo, MN where he resides. Don is a retired Conservation Officer from the MN DNR. He has had a lifelong interest in nutrition and plants and intensified his research since a bout with cancer in 2007. We will receive some of the benefit of his work at this meeting.

If I ask you to draw a daisy, where does that process start? It starts as a non-material thought in your mind and only then can it be converted into a physical reality. Two words - God and pharmacy will be discussed in this presentation. The information stored in DNA (required for life) is non-material and had to originate from an eternal, non-material mind. A mind was also required to intricately design plants. Many plants have components which they need for their protection, growth, etc. but which have also been designed to provide additional nutritional value, usable by humans. We will look at several plants and the astounding quantity of components found within each. If used, the result might be improved health and longevity as we take in the components to accurately make our cells.

Updates at www.tccsa.tc All meetings free and open to the public.

Have you considered ...

.....that one of the basic reasons leading to the scientific method was the sinfulness of man. The sixteenth century Reformers realized man's depravity and that reason could not be trusted totally. Because of man's sinfulness, he had an inclination toward twisting the things for his own purposes. So, science needed both reason with repeatable experimentation.

Also, the Reformers took seriously, that man was to have dominion over creation, which meant he needed to study and understand it. These two ideas, man's sinfulness and taking dominion, birthed the scientific revolution which produced many of the founders of the various branches of science.

These were Bible-believing scientists, such as Newton, Lister, Kepler, Boyle, Maxwell, Faraday.....

"Thinking God's thoughts after Him" has produced much of the technology we have today.

What if Jesus Had Never Been Born?, D. James Kennedy, 1994, p.91-106

Our monthly programs are available locally but also anywhere that has access to the internet. Souls everywhere can see and hear them. Let us know if you, your kids, or grandkids, would like to use their God-given gifts to help reach people for creation and Christ. TCCSA spreads the good news of our Savior and Creator and we need people of all ages to get involved. Eternity without Jesus is hell, help us put out the fire.

Coming Up (Lord Willing)

July 16—Dr. Kezele—From Darwin to Dictatorship

Aug. 20—Kevin Lea—DART Prediction & NASA's Blunder

Sep. 17—Guy Forsythe—TBD

Oct. 15—Roib Stadler—Science & Faith

TCCSA's STATEMENT OF BELIEF

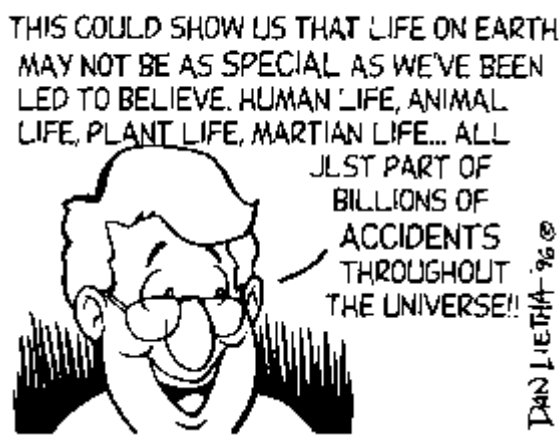

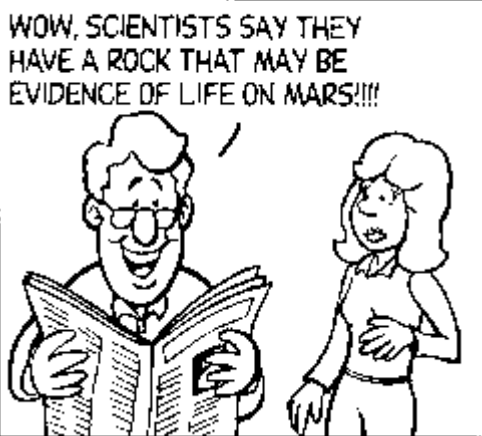

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

There is much about God that cannot be appreciated unless we take time to study and understand what He has created. Romans 1:20 tells us that **man can clearly see God's eternal power and divine nature through what He made and no man will have any excuse for not subjecting himself to God's authority, because of this evidence from creation.**

It is our responsibility to not only study God's Word but also His Marvelous creation. We should meditate on what we learn from it if we truly desire to appreciate and know God. Too often we waste our God-given time and abilities. We concentrate on entertaining ourselves and satisfying our physical desires instead of getting to know the One who made us and the world around us. Sadly, we are all too often captivated by man-made things, rather than the awesome creation which is right before our eyes. We miss so much if we do not cultivate a proper interest in the natural world around us. "...o Lord, open his eyes so he may see." 2 Kings 6:17
