CREATION BULLETIN

October 2024

Vol. 50, No. 10

"Science and Faith: Friends, Enemies, or Frenemies?"

Tuesday October 15, 2024, 7:00 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

Our culture portrays science and faith as enemies, encouraging us to "follow the science" rather than follow our "anti-science" beliefs. Are science and faith really at odds?

Dr. Rob Stadler returns for an in-person talk you will not want to miss. Rob is an author and **speaker from here in the Twin Cities. Rob's talks are always interesting for anyone who strives to be well-rounded in their understanding of science.**

We also plan to have our TCCSA resource table available at our meeting this month. There **will be a selection of books and DVD's at good prices. We can only accept cash and checks.**

All meetings free and open to the public.

Have you considered ...

... the rivers in the sea. One of them, the Gulf Stream, carries 5,000 times as much water as the Mississippi River. We know that the warmth of this river keeps Great Britain from having unbearably frigid winters. Steady winds from east to west and the spinning of the Earth cause these waters to be set in motion and continue their circulatory path. There are many rivers in the sea; if they did not exist, the oceans would be stagnant and become filled with death and decay. If the ocean waters did not mix in this way, there would be a slow gathering of noxious fumes on the bottom, killing all that lived there. Then **slowly over time, the Earth's internal heat would warm this foul black water until the water on the surface was cooler.** At this point, the ocean waters would turn over. This foul black mess would then vent into the atmosphere causing catastrophic poisoning. Our life on Earth depends on these rivers in the sea. God set them in motion for our benefit.

... stop and consider God's wonders. Job 37:14

It Couldn't Just Happen by Lawrence Richards p.27-29

Coming Up (Lord Willing)

Nov. 19—Richard Broadberry—Miracles of the Highest God

Dec.—Celebrate our Savior's birth with family and friends..

Jan. 21—Danzil Monk—Defending Biblical Truth

Feb, 18—Carl Werner—Frauds at Museums

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

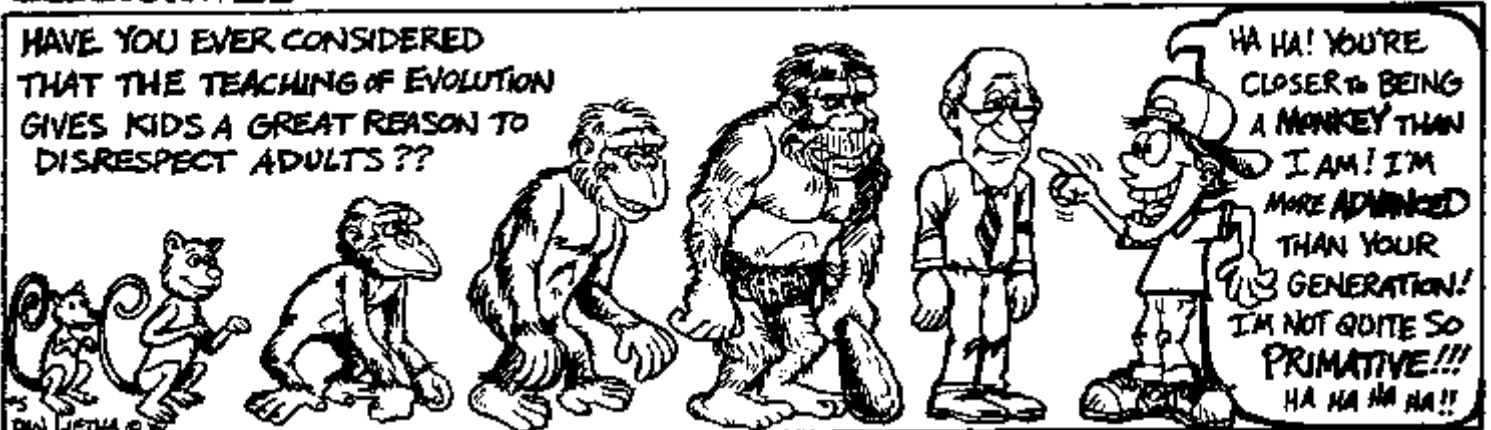

If you haven't done so already would you consider presenting the enclosed request to your Pastor or Church leaders? Our costs continue to increase especially speaker travel expenses. Expenses often are 2 or 3 times the amount received in our offerings. Zoom meetings and local speakers help us reduce costs but in-person meetings attract larger turnouts.

Twin Cities Creation Science Association (TCCSA) is a local non-profit, volunteer-run organization dedicated to spreading the fact that scientific evidence points to creation and the accuracy of the Biblical timeline. Genesis is very clear on when and how God created all that exists.

TCCSA has local meetings 11 or more times per year. We don't stop there, programs are live-streamed to the whole world via YouTube and Zoom and then stay on You/tube and Rumble where people in many countries can watch them. Places include countries where Christianity is not allowed.

The University of Northwestern in Roseville provides a meeting place without charge but there are expenses. We pay speaker's travel expenses and a small honorarium. We also need good equipment to make it all happen. We invite you and your church people to attend our meetings in person or online. We are looking for churches to help support us as a mission to the whole world. They can find out more at www.tccsa.tc or david-johnson@usfamily.net
