God's Electrical Basis for Order in the Universe

Electricity and Physics for the 2003-2004 Homeschool Year

God has created two forms of energy:

1. Raw Energy in the form of waves, like light, ultraviolet, infrared, electrical, radio, and many other types of waves.
2. Refined Energy. God gave the raw energy a positive and negative charge so that it could bind together into spinning rings of energy to form matter. This is called the Spinning Ring Model of the Atom. Developed by Dr. Lucas and Dave Bergman.

*A New Model of the Atom Based on
Classical Science and a Biblical World View*

Russ McGlenn

materials fee per family which includes a CD Syllabus with over 500 pages of notes, colored pictures, vocabulary, quizzes, and activities. The materials will be coordinated with the A Beka Book, "Matter in Motion." Parents can use these classes as their complete science curriculum.

There will be 40% new material from 4 years ago, a revised text book, and Teens are encouraged to come.

Tell your homeschool group leader if you are interested in these classes. We will work through them. If you have no co-op then contact us for a school near you.

Russ and Tricia McGlenn, 763 434 5047, russmcglenn@juno.com

Web has lesson outline at www.tccsa.tc

* Crystal maybe 9AM -12:15 for three days on normal school day.
