THIS SCIENCE CLASS IS BASED ON THE BOOK : "Design Versus Chaos: the New Model of the Atom" by Russ McGlenn. (The book is included.)

The students will help make circuit boards. We will play "God Gives Energy," The Electron Game, "Who Wants to be a Millionaire" and The Radio Wave Game. They will learn about:

Static Electricity and Lightning. Its use in the Bible.

Volts and Watts, Do Circuit boards for understanding electrical principles.

Do electrical action Boards

Samuel Morse: Christian entrepreneur. The first use of electricity and a computer language.

Radio Waves. Energy for the Universe. Crystal Radios and ancient communications.

Crystal Skull. Mysterious Mayan artifact confounds the wise. Electricity in the Ancient World

Ancient Inventions. Scientific Development in Ancient Times. The Top 10 first Science Discoveries in the Bible.

Scientists of Faith. Highlights of Christians in Science.

A magnetic safari, where the kids use magnets in a series of experiments to understand how the atom works. They will learn in class how the new model of the atom works as a result of electricity and magnetism.

AND MUCH MORE!

Track 3: The Adventure Safaris' Pathfinders Series

This will be a class for older or advanced students who want to learn how to do research, prepare PowerPoint programs and learn critical thinking in order to defend their Faith. Excellent and Inspiring!

We will meet for two, 5 hour days separated by a week. Bring a sack lunch, as there will be a half hour for lunch. Students learn fundamentals on the first day. They receive a homework assignment that they will work on in order to present a 15 minute Power Point program a week later on day two. We will do a gentle critic of the program, giving the student input on what worked well or where there needs improvement. Russ has been teaching for 40 years and was asked by one of the moms, "How are you passing on your ideas, knowledge and message. Do you

have someone you are training?" I said I was thinking of a class where I would do just that. She and several others said they would like their students to take the class. Thank you parents and students for inspiring me to make this available. When we see how this works and the interest I will add a part 2.

Pathfinder 1: PowerPoint and Reading with Discernment Classes
