Science According to Isaiah

Walter Lang

Tuesday, January 15, 1997, 7:30 p.m. Totino Fine Arts Center, Rm 115, Northwestern College, Roseville

Rev. Lang will be speaking on 52 science subjects from the book of Isaiah. Subjects may include clouds, rain, mountains, volcanoes, time, the heavens, the sea, and dinosaurs. Through Isaiah, God revealed many things about the world without benefit of modern theories and fancy equipment. All age groups will appreciate this talk.

Upcoming Events

Feb. 18 **Bob Helfinstine** will be speaking on archeology in Spain. Topics may include hydraulic engineering, mining methods, weapons and worship. Illustrations of statues and temples will be shown.

Mar. 17 **Russ Hanson** will be discussing fossils and the fossil record. How much time, temperature, and pressure is needed to make a fossil? Can carbon dating be used to date fossils? Mr. Hanson will be talking and showing visuals for the whole family.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only

Moving?

The Post Office will not forward bulk rate mail so let us know where to send your **Creation Bulletin**. You won't miss one and we won't get charged. Thank You.

Adventure Safaris

Place **February 1-2**, on your calendar for the 2nd annual **Home School Science Fair** at Har Mar Mall. We expect 100 - 200 students with projects that will be exciting for everyone. Helpers are needed so let Russ know if you can help. This is a great opportunity to get the creationist message out to the community.

Adventure Safaris is offering four 5-day **dinosaur fossil digs** in Wyoming and South Dakota July 21 through August 15, 1997. The cost will be \$600 for 1-2 people and \$50 for each additional family member. Campers arrive on a Monday and leave on Friday. Each camper unit will provide their own housing/tent, meals, and 1/2 gallon of potable water per person per day. We provide wash water, toilet, solar shower, all digging equipment, a 110 volt generator for charging batteries, a tent for meetings, maps to the site, handbook, and five days of hands-on teaching. The dig site will be an outdoor classroom with interpretation of strata and dinosaur fossils from a Creation Science perspective. Participants will learn how to grid the dig site, excavate, record data, identify and reconstruct bones.

Special activities include: viewing dinosaur trackways, using microscopes to locate microfossils in ant hills, learning comparative anatomy, constructing bone field jackets, preparing bones for the laboratory, making latex molds for bone reproductions, and studying geological formations and their relationship to Noah's Flood. All bones will be retained for the museum, but registrants will mold and cast a bone replica to take home. Each week will be limited to 15 groups of registrants. People interested in going please note that **all applications and fees must be in by May 1st**, so supplies can be purchased and the site prepared for the number of registrants.

We are looking for a church or individuals who would like to help reach refugee and inner city children with the Creation Science Gospel Message. Would you like to sponsor Asian refugee students at the dinosaur dig? A family of three teenagers who have become Christians would like to go. Your tax deductible contribution will help make this possible.

We need old Tinker Toy or Erector sets for class experiments. Let us know if you can supply something.

Call **Russ McGlenn** at **(612)434-5047** or **(800)201-0081** for details on trips, activities & fossil reproductions. All gifts made out to **TCCSA** for **Adventure Safaris** are tax deductible. Be sure to note what your gift is for, such as unreached peoples outreach or dig scholarship.

Upcoming Metropolitan Creation Science Association Events

The **Metropolitan Creation Science Association** holds its meetings at Redeemer Lutheran Church, 1301 E. 42nd, Burnsville, starting at 7:00 p.m. For more information please call the **Genesis Institute** at 861-5288.

Jan. 6, 1997 Russ McGlenn will be speaking on David and Goliath and how genetics determines what we are physically. Life size reproductions of Goliath (9+ feet) and Princess Flo (33 inches) will be available for viewing. This is a program and experience you won't easily forget!
