## Teaching The Biotic Message

Tuesday, Jan. 20, 1998, 7:30 p.m. Totino Fine Arts Center, Rm. 115 Northwestern College, Roseville

Russ McGlenn of Adventure Safaris will present this topic and how he teaches it to home school students. We live in a world where there is a growing emphasis on the animal origins and nature of man. Yet the Bible always classifies mankind in relationship to God and never in relationship to the animals. The goal of this program is to help each student to see God's Biotic Message in every aspect of life around them, from the tiniest cell to the most complicated interaction of the human body's organs and bones. Some of the questions answered will be:

- ◆ What 10 things show that "Lucy" is not our great, great, etc. grandmother?
- ◆ What is the message that God has put in every living creature?
- ◆ How can it help us understand God's purpose for the creation?
- ◆ Why do humans and apes have anatomies that are similar?
- ◆ Why is evolution's worst nightmare variety in living creatures?
- ◆ Can mutations really change an ape into a human?
- ◆ What scientific concept, said to be the greatest argument for evolution, actually di

**MADE IN HIS IMAGE?**

Students, as well as adults love Russ' "hands on" visually creative programs. Biblical audiences see and touch the many artifacts Mr. McGlenn has built. Russ McGlenn will be bringing his latest model of Noah's Ark built to a 5/8 inch to the foot scale (GI Joe scale). It represents a 40 foot length cross section cut out of the Ark 75 feet across and 45 feet high. (two feet long by four feet wide by two and a half feet high) You and your children will want to see this remarkable model. Highlights include:

- ◆ A winch and pulley operated lift system for moving animals and equipment around the Ark.
- ◆ A complete apartment for Noah and his family.
- ◆ Various sized cages for the birds and animals.
- ◆ Over 100 model animals showing the pairs God commanded.
- ◆ A unique construction allowed Noah to build the lower hull of the ship without external scaffolding.

I  to become a member of **TCCSA** and I subscribe to the Statement of Belief  
(Calendar year membership dues are \$20.00. Students do not pay dues.)

I  to renew my membership in **TCCSA**. (note dues above)

Pl  keep me on your mailing list (must be renewed each year)

I  to make a donation to help **TCCSA** promote Creation Science.

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

## Upcoming Metropolitan Creation Science Association Events

The **Metropolitan Creation Science Association** holds its meetings at Redeemer Lutheran Church, 1301 E. Cty. Rd. 42, Burnsville, the first non-holiday Monday of each month starting at 7:30 p.m. Call (612)461-1073 for info.

- Jan. 5 Structure of the Atom presented by Bob Laing, president of Clean-Flo Laboratories.
- Feb. 2 Anatomy & the Biotic Message - Russ McGlenn - Similar to the TCCSA January 20 meeting on page 1.

# A d v e n t u r e S a f a r i s

The Adventure Safari Home School Science and Inventions Fair has been split into three divisions. First through third grade, fourth through sixth grade, seventh through twelfth, and we added an inventions project (open to all grade levels).

We need Science Fair volunteers as judges, and to set up and take down tables, and a chairperson to be a liaison with Har Mar Mall and to coordinate volunteers. The dates for the Science Fair are January 31 - February 1, 1998. Please contact Russ or John if you are available to help. Students need to register in order to participate in this wonderful opportunity.
