People often question was there really a Biblical flood and an Ark. If you or anyone you know has unanswered questions on the flood, this is the meeting to attend.

Linda Gunderson, a former skeptic about Noah’s Ark actually surviving, has met several of the scientists and researchers involved in the search for the Ark. Her quest for knowledge and thorough investigation has led to some surprising findings.

Find out what the fossil record has to teach us about the past and what modern day evidences have revealed. What was the flood like and could any vessel have survived the deluge? Questions about the Ark’s size, the animals, dinosaurs, and more will be addressed. Hear stories of danger and adventure experienced by modern researchers on their expeditions to locate the Ark.

More then a children’s story, the Biblical account comes to life as you journey with Linda to discover the real Ark of Noah. This fast-paced, comprehensive and refreshing presentation is highly recommended for all ages.

Due to chemical allergies, the speaker requests that you refrain from wearing scented products on the 20th.

Looking to add creation materials to your library? John Nuckols of Adventure Safaris has an extensive list of books and tapes available. John has a display table at most creation events in our area, or he may be contacted by phone, e-mail, or mail. His address is listed on the back of this bulletin.
Most of our programs are available on Video from...

**CREATIONWISE**

**SOME OF MY STUDENTS WERE ASKING ME IF EVOLUTION IS FACT OR THEORY.**

**WHAT DID YOU TELL THEM?**

**WELL, IF THEY QUESTION EVOLUTION, THEY MAY DOUBT IT. IF THEY DOUBT IT, THEY MIGHT LOOK TO OTHER ORIGIN OPTIONS!**

**AND YOU KNOW THERE'S ONLY ONE OTHER OPTION BESIDES EVOLUTION!**

**OH MY, NOT THAT!**

**DAN LITHERLAND**

**SO YOU TOLD THEM EVOLUTION IS A FACT?**

**OF COURSE!**

Three 5-day Dinosaur and Indian camps are scheduled for May at Devils Lake State Park, just thirty minutes from the Wisconsin Dells recreation area. Russ, his daughter, and son-in-law will draw from their Native American background to help you experience how Indians lived and what the Bible has to say about their origin and future. You will also learn about evidence of early Indian contact with dinosaurs.

We are also running four, 5-day camps in June and July at a sauropod (long neck dinosaur) site near Belle Fourche, SD, an hour drive from Rapid City. Camp sites, motels and even a bed & breakfast are available in the area. In addition to digging, there are many free-time activities for the whole family. A training manual will be provided prior to the digs so you can develop dig skills at home before you go.

Sailing trip on Lake Manitoba in Canada, August 8-21 in search of Monopogo. Monopogo is a supposedly extinct Basilasaurus dinosaur that has been sited for the past 40-50 years usually in August. We will be sailing, exploring, hearing legends and much more. There are discounts for registration before April 15. Contact us for more information or to reserve your place at one of these unforgettable family camps. You will be glad you did!
