June, 1999

Pittsburgh Conference

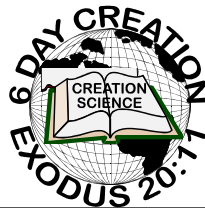

Tuesday, June 15, 1999, 7:30 p.m. Totino Fine Arts Center, Rm. 115, Northwestern College, Roseville

This evening we will present some short highlights from the Pittsburgh Conference held last year. During the conference several subjects were covered by the best minds in the creationist movement. Selected topics have been chosen that will be of interest to most of our attendees. About twenty minutes will be given to each subject with a question and answer period to follow each one. Come with an open and questioning attitude and you won't be disappointed.

TCCSA Logo Contest

Do you have a better idea? Think you can design a logo for TCCSA that will catch the eye and tell our story? We think it's time to change our image, will you help? Keep it simple so it will be recognizable large or small.

WHY DO WE NEED A NEW OR MODIFIED LOGO? The central part of the present logo, the world and the Bible with the words Creation Science, are OK, but the outer portion of orbit paths which make the whole logo an approximation to a Bohr atom model, are not in agreement with current scientific evidence for atomic structure. Here are some ideas to get you started. Entry deadline is Aug. 15 so we can print samples in the Sept. newsletter. Use the address in the box below for questions or submissions. You may e-mail, snail mail or hand deliver to next meeting.

Looking for Creation Resources?

Check out www.creationism.org and our web site listed above. You will find links to many organizations that will allow you to find just about anything about anything to further your knowlege.

July 20 - Dee Mclellan on her trip to a special NASA launch.
August - No meeting or newsletter.
Sept. 21 - Start of new season with something for everyone.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

I to become a member of TCCSA and I subscribe to the Statement of Belief
(Calendar year membership dues are \$20.00. Students do not pay dues.)

I to renew my membership in TCCSA. (note dues above)

P keep me on your mailing list (must be renewed each year)

I to make a donation to help TCCSA promote Creation Science.

Adventure Safaris

Please pray for our activities this summer, for safe travel for all participants and a God honoring experience for everyone. You may still be able to sign up for one of our safaris, but you must call soon.

We are running four, 5-day camps in June and July at a sauropod (long neck dinosaur) site near Belle Fourche, SD, an hour drive from Rapid City. Camp sites, motels and even a bed & breakfast are available in the area. In addition to digging, there are many free-time activities for the whole family. A training manual will be provided prior to the digs so you can develop dig skills at home before you go.

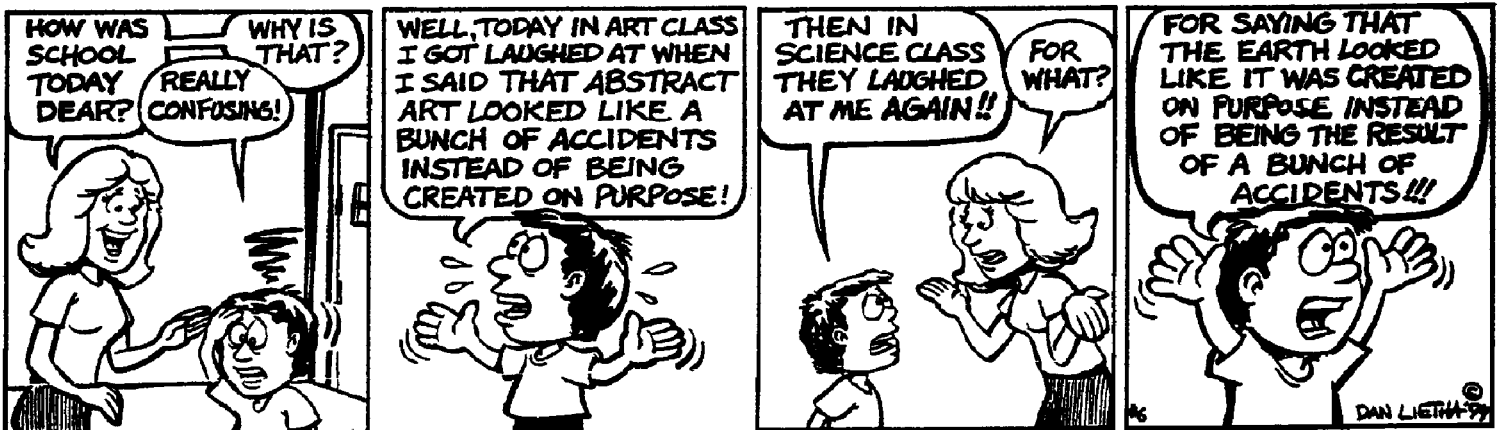

Sailing trip on Lake Manitoba in Canada, August 8-21 in search of Monopogo. Monopogo is a supposedly extinct basilosaurus dinosaur that has been sighted for the past 40-50 years usually in August. We will be sailing, exploring, hearing legends and much more.
