## The Secret Life and Times of Unborn Children

7:30 PM, April 20, 2004, Totino Fine Arts Center, Rm. 115, Northwestern College

This program is exciting and appropriate for all ages. The unborn baby is a wonderful picture of God's power and love towards us from conception to eternal life. Emphasis will be on the unborn baby before the mother even knows she is pregnant. Most people think that their birthday is the most important day of their life. Yet, before you were born and were a person of 1 trillion cells, day 15 in the womb was the most important day of your life. Russ will answer why this is true as well as why you are fully human whether you are one cell, a million cells or, when you enter the world at birth, a trillion cells. What is the Matrix? What does it mean to be "Knit together in the Womb?" King David uses a term to describe our creation in the womb 3000 years before it was discovered by science. See Ps.139:13-16.

Russ McGlenn will be back in Minnesota and this is your chance to see and hear him again. He uses colorful animated Power Point with explanations easily understood by all audiences.

The meeting will be in two parts. The first fifteen minutes will be a report on his dinosaur dig last summer at Lemmon SD and the evidences found for Noah's Flood. The second part will be on the unborn child.

All meetings are free and open to the public. A free-will offering will be taken.

### Creation Science Writing Contest

Have you been looking for a challenge for your students? TCCSA is sponsoring a Creation Science Writing Contest for grades 1 through 12.

We want to help the next generation improve their skills of logic, reasoning, research and written communications.

All papers will be due May 15, 2004. Some may be reproduced by TCCSA with acknowledgment of the author's name and age.

There will be prizes and an opportunity for especially good reports to be presented by the author at a TCCSA meeting. [www.tccsa.tc](http://www.tccsa.tc) for information.

### Coming up . . .

May 18 - Richard Broadberry, Genesis revealed in Ancient Chinese Characters

June 15 - Al Heitkamp, Extinction of Dinosaurs

Check [www.tccsa.tc](http://www.tccsa.tc) for other activities in our area.

## CREATIONWISE

# Adventure Safaris

Wow! What a science fair, such interesting displays and experiments were shown! Topics ranged from how to feed wild birds from your hand to how a kite could have been used to build the pyramids. Kids, parents, and mall shoppers could be seen crowded around presentations on visual sound, lung air capacity, cerebral palsy and pulleys. Presentations on feathers and insects left the listener in awe of God and His design. As always, we are grateful to Har Mar Mall for providing a venue for the home school creation science fair.

Adventure Safaris presents the Creator and His designs and laws to homeschool coops. Contact us if you are interested in receiving an excellent science education for your students. As a nonprofit organization, we are supported by our school work as well as by interested churches and individuals. All gifts made out to TCCSA are tax deductible. Designate what your gift is for.

You can now go direct to [www.adventuresafaris.org](http://www.adventuresafaris.org) or link from [www.tccsa.tc](http://www.tccsa.tc). Thanks Dr. Ross Olson for your excellent work in managing the web sites.
