Double Double Feature Feature

7:30 PM, July 19, 2005, Room F116, Totino Fine Arts Center, Northwestern College

This month we will be treated to not one, but two programs. Each one will last from 20 to 30 minutes which leaves time for questions and answers. Regular attendees know that the Q & A can be lively and spirited.

First we will have a video called From A Frog To A Prince by Answers in Genesis. It features interviews with prominent spokesmen for both creation and evolution and includes the famous "eleven second gap" in which Richard Dawkins appears speechless.

We also have Sharon Gore, a ventriloquist with Creation Moments and her friend Behemoth, talking about creation, dinosaurs and the flood.

There will be something for everyone so come and bring someone along, you will be glad you did.

All meetings are free and open to the public. A free-will offering will be taken.

Next Month. . .
August - No meeting or newsletter
September 20 - Dave Nutting from Alpha Omega Institute in Grand Junction, CO
October 18 - Dr. Don Hardy - Global Warming
www.tccsa.tc for other activities in our area.

TCCSA’s STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

CREATIONWISE

Train up a child in the way he should go...

And when he is old, he will not depart from it.
Proverbs 22:6

God made us very special!

Do you suppose the same is true for a child trained up in the way he should not go?

Hey kids! Today our story begins billions of years ago with the big bang!

Other Activities

Dr. Don Bierle and FaithSearch will be conducting training seminars for personal ministry, outreach and discipleship. Check it out at www.faithsearch.org and click on calendar or call (952) 401-4501.

Dr. John Morris of ICR is scheduled to be in Hutchinson MN on Sunday, Sept 11. Call (320) 587-3031 for information or go to www.icr.org and click on events for details.

Have you considered …

the loon. The loon is a bird—and we know that all birds have hollow bones – right? Wrong! Loons are one of the few birds that have solid bones. Why? Because it eats fish—and in order to get these fish, they need to dive deep. Having hollow bones would be like wearing a life jacket. Imagine yourself trying to dive 200 feet with a life jacket on! This would be fairly difficult. God specially designed the loon with solid bones so that it could catch fish without tremendous difficulty. When you see a loon on the lake, notice how low it rides in the water—it has heavy, non-hollow bones. So, the next you hear a loon call, think of the Master Designer and His special design of the loon’s bones.

… stop and consider God’s wonders. Job
