## Floods of the West

7:30 PM, September 20, 2005, Room F116, Totino Fine Arts Center, Northwestern College

In several parts of western United States and in other areas, there are erosional features and related deposits of debris which speak loudly of massive discharges of water. These include canyons 20 miles long, 6 miles wide, and many hundreds of feet thick. Debris consists of rolling hills and massive gravel bars high above the surrounding terrain. Much of the debris are boulders the size of automobiles and larger. These features support Noah's Flood and the aftermaths of that Flood. Geologist, Dave Nutting, takes you on a visual tour of some of these sites so that we can apply this knowledge to other locations including our own backyard. You may never go on a trip again without seeing the countryside in a different light!

Dave Nutting is the founder and director of Alpha Omega Institute. AOI is an organization with a mission to teach the scientific and Biblical evidence of creation and its relevance to children and adults throughout the world. Dave is a former evolutionist who "evolved" into a creationist after studying the scientific issues. He holds degrees in mathematics and in geology. All meetings are free and open to the public. A free-will offering will be taken.

### Coming Up . .

October 18 - Dr. Don Hardy - Global Warming

November 15 - Randy Halverson - Noah's Ark

December - No meeting or newsletter

January 17 - Dr. Allen Curtis

February 21 - Dr. Charles Aling

www.tccsa.tc for other activities in our area.

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

## Adventure Safaris

By Daniel Nuckols

### Have you considered the magnificent monarch butterfly...

The fall migration is fascinating! The ability of a monarch to fly 3,000 miles to a place it has never seen before amazes people. But, have you considered the monarch's metamorphosis. How does a caterpillar make a chrysalis and dissolve itself into jelly and come out a butterfly? How could a creature with 6 simple eyes, which see in black and white, dissolve and create 2 eyes with 6,000 lenses which see in color? Or how could a creature with a chewing mouth that eats only salad dissolve and create a long tongue that sucks nectar? Or how could a creature with 16 legs become jelly and turn into 6 legs and 4 wings? How could this have happened by chance, any flaw along the way would have produced death? God, the master Engineer, designed the caterpillar to make a chrysalis, dissolve itself into jelly and reemerge as a butterfly. So, as you see monarchs migrate this fall be amazed at the 3,000 mile flight but be equally amazed at how it transformed itself into a butterfly!

*(From Darkness to Light to Flight, Poirier)*

...stop and consider God's wonders. Job 37:14

### Other Activities

Dr. John Morris of ICR in Hutchinson MN on 9/11.  
(320) 587-3031 for information or [www.icr.org](http://www.icr.org) and click on events.

9/23-24 - North Heights Lutheran - debate & Lecture  
Tom DeRosa - Young Earth, Old Earth or Evolution.

9/30 - Creation Science Discussion Group - info on these and other activities at [www.tccsa.tc](http://www.tccsa.tc)
