CREATION BULLETIN

July 2006

Vol. 32, No. 7

7:30 PM, July 18, 2006, Totino Fine Arts Center, Room 116, Northwestern College

There is an opinion, common among scientists and intellectuals, that our Earthly existence is not only rather ordinary, but in fact, insignificant and purposeless. Perhaps this melancholy assumption, despite its heroic pretense, is mistaken. Perhaps the unprecedented scientific knowledge acquired in the last century, enabled by equally unprecedented technological achievements, should, when properly interpreted, contribute to a deeper appreciation of our place in the cosmos. In this 60-minute video documentary we will explore a striking feature of the natural world. A feature as widely grounded in the evidence of nature as it is wide-ranging in its implications: the conditions that allow for intelligent life on Earth also make it strangely well suited for viewing and analyzing the universe.

Utilizing stunning computer animation and the visual archives of NASA, the Hubble Space Telescope Institute, the European Space Agency, and leading observatories throughout the world, the program will present a spectacular view of our planet, galaxy, and the entire cosmos. Discussion will follow the video.

All meetings are free and open to the public. A free-will offering will be accepted.

Coming Up . . .

August - No meeting or newsletter
September 19 - Russ McGlenn - Noah's Library
October 17 - Dr. Kevin Anderson - Genetics
November 21 - Dr. Glen Collins
December - No meeting or newsletter
January 16 - Something great

Another Writing Contest

If you are between 17 and 23 years old the time to enter is now. Entrants are required to read the book ***Not What My Hands Have Done*** (Special Price: \$10.00 postpaid to U.S. addresses for contestants) and write an essay about it. Essays must arrive at The Trinity Foundation by September 1, 2006.

Prizes are generous: \$3,000 for the First Prize, \$2,000 for the Second Prize, and \$1,000 for the Third Prize. For a complete set of rules and entry forms, please go to the website, www.trinityfoundation.org.

Birds have remarkable eyesight!

Yet have you considered its third eyelid? In addition to the upper and lower eyelids, birds have a third eyelid. This **transparent** third eyelid sits in the corner of the eye and sweeps backward. This third membrane cleans and moistens the eye while still allowing the bird to see. Imagine a bird having not evolved this third eyelid and flying on a dusty windy day. Closed eyelids would cause momentary loss of vision which would not be good when plummeting earthward for a rodent or flying in close quarters. Or imagine falcons diving at great speeds and having not evolved this third eyelid; the eyes would dry out. This third eyelid allows protection with vision. And as for ducks, they just put on their "goggles" in order to have clear undistorted vision while swimming underwater. We have a Master Designer who has concerns even for a bird's eyes.

.... stop and consider God's wonders. Job 37:14

This month we celebrate America's birthday. Do you thank God for what you have?

Monkey's Cuz by Daniel Nuckols

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

"If we ever forget that we're one nation under God,
then we will be a nation gone under." Ronald Reagan
