

## Censorship in the Land of Oz: Are We in Kansas Anymore?

7:30 PM, January 16, 2007, Totino Fine Arts Center, Room 116, Northwestern College

When Dorothy looked around and stated "I don't think we're in Kansas anymore" it had nothing to do with their education system. When we look at Kansas (or Minnesota) education systems what are they teaching our kids? When science teachers are not allowed to teach facts or show evidence that refutes evolutionism, are we in Oz?

Dr. Bruce Simat was among the team of scientists who went to Kansas in May of 2005, opposing the Kansas evolution teaching guidelines. The team never mentioned Intelligent Design but simply asked that evidence contrary to evolution be presented to students. They were asking for true education as opposed to indoctrination. The opposition, called "Kansas Citizens for Science," responded by attacking the credibility of the speakers, claiming that they were not scientific and misrepresenting the issues. They then proceeded with backroom political manipulation to replace the elected school board with those sympathetic to evolution.

Dr. Simat has a Masters and PhD from the University of Minnesota in Biochemistry and Physiology. He worked for the US Government Research Center at the VA Hospital in Minneapolis and then for Abbott Laboratories in Chicago. He has also done research for Kallestad Laboratories and Sanfoni Diagnostics Pasteur before accepting the position of Associate Professor of Biology at NWC.

All meetings are free and open to the public. A free-will offering will be accepted.

### Coming Up in 2007 . . .

For updates go to [www.tccsa.tc](http://www.tccsa.tc)

February 17-18—Science Fair at Har Mar Mall see web site for details

February 20—Bruce Malone - Explosive Evidence for Creation: Mount St. Helens

March 20—Ian Taylor - Could Evolution produce A Genius?

April 17—Dr. John Baumgardner - From the Institute for Creation Research

### Calling all K-12 Students

Have you participated in a science fair? They can be a fun and exciting way to learn science.

You select a topic, design a project, complete the project, design a display and make it. You are judged on your project and your verbal and visual presentation of it. Your project will be on display in a public mall for 2 days.

Go to [www.tccsa.tc](http://www.tccsa.tc) and click on Science Fair for rules, ideas, helps and an application form. You can also contact Julie Von Vett at (651) 464-4361 or email her at [vonvett@juno.com](mailto:vonvett@juno.com).

Have you considered . . .

the evergreen? They have the ability to withstand below freezing temperatures, even to -49°F. How can this be? We know that evergreens are green because photosynthesis is taking place; and in order, for photosynthesis to take place, water is required. However, water that is below 32 °F freezes. So, what is going on inside those needles, why don't they just freeze and die? Within the needles is no ordinary sap but they contain chemicals that act like anti-freeze, preventing ice from forming inside. These chemicals are what give evergreens their characteristic scent. So, as you take that winter walk,

. . . stop and consider God's wonders. Job 37:14

### Adventure Safaris

By Daniel Nuckols

**Who said evolution is not a religion?**

And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. Genesis 2:26

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Are you moving? Please let us know so you won't miss an issue, and we won't be charged extra.
