

## Grand Canyon: A Different View

7:30 PM, June 19, 2007, Nazareth Hall Chapel, Northwestern College

When Tom Vail was here in November 2004 we packed the room, so this time we have a larger room.

In 1980, while managing a corporate computer center in downtown Los Angeles, Tom Vail took a vacation that would prove to be a turning point in his life – a rafting trip through the Grand Canyon. Two years later he became a commercial guide including part-time guide for the National Park Service.

Tom's time in the Canyon not only led to a career he loves, it also brought about a spiritual change in his life. In 1994, Tom became a Christian and the following year, he and his wife Paula started Canyon Ministries, which offers Christ-centered rafting trips through the Grand Canyon. Besides their own trips, they run Canyon tours for both *Answers in Genesis* and *Institute for Creation Research*. The Vails live in Phoenix, AZ.

In his book, *Grand Canyon, a different view*, Tom combines the stunning photography of fellow Canyon guide Charly Heavenrich with compelling commentaries of leading creation science writers, researchers and theologians. The Canyon is shown from the largest geological wonders to the smallest flora, all intricate parts of God's hand at work. Join us as he shares how the Grand Canyon provides evidence for a global Flood and is a living testimony to God's word – all part of an important biblical message.

All meetings are free and open to the public, an offering will be accepted.

### Our Writing Contest is over

The papers are in and the judges are reviewing them. Expect to hear a young author read theirs at an upcoming meeting.

Have you considered ...

... the wood tick?

I'm sure you have had your fill of these little critters by now. Yet, ticks are master chemists. The tick has amazing saliva which includes an anesthetic. This anesthetic allows the tick to attach and sip our blood without us noticing it. Normally blood clots when a wound happens; however, the tick's saliva is able to disable this clotting mechanism, thereby it receives a continual flow of this delicious meal. Could random natural processes have produced this? No, our Master Designer created this amazing saliva. So, the next time you get a tick on you ...

... stop and consider God's wonders. Job 37:14

Harold "Bud" Froehlich, 84, recently passed on. In his earthly life, he was the award winning, brilliant, inventor and chief engineer for the design and building of the submersible research submarine Alvin. He had careers with General Mills, Boeing, and 3M. He was a TCCSA member and frequently attended TCCSA monthly meetings. He made the Alvin presentation to our organization some years ago.

For more complete information on Bud Froehlich, see Bill Overn's write-up on our web site and the Mpls Star obit, May 22, 2007 page B 6.

**TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

A Mail-Order Creation library is preparing to re-open. They plan to use CD's and DVD's rather than tapes to save postage. They are in need of volunteers and tax-deductible contributions to make it happen.
