

## The Ice Age and Mammoths

7:30 PM, January 15, 2008, Room 116, Totino Fine Arts Center, Northwestern College

Where does the ice age fit with a Biblical worldview? Was there many or just one ice age? Where do mammoths fit in? What was man doing at this time? These questions and much more will be discussed and answered. Julie communicates with children, teens and adults in a way that keeps everyone wanting more.

Julie Von Vett teaches creation science in homeschool co-ops. This school-year's theme has been Geology and Creation. Next year she will concentrate on weather and astronomy. She also presents talks to churches and other groups using fossils and models to illustrate her topic.

If you are interested in having Julie speak at your co-op, church or other group contact her at 651-464-4361 or [vonvett@juno.com](mailto:vonvett@juno.com).

A short semiannual election will be held during this meeting. Members who have paid their 2008 dues will be eligible to vote. See the box below for details.

All meetings are free and open to the public, an offering will be accepted.

Have you considered...

the beauty of blizzards? They are full of snowflakes. The average complex snowflake is made up of 100 ice crystals. The number of ways these crystals can be arranged is staggering; if you do the math, the number of possibilities is greater than the total atoms in the universe. Thus, it's unlikely that any two complex snow crystals, since the Flood of Noah's time, have ever looked completely alike. God is still giving us new design possibilities today. So, the next time it snows, catch a snowflake on your dark mitten and look closely at the new design God has given us.

... stop and consider God's wonders. Job 37:14

January 22, 2008 marks the 35th anniversary of one of the U.S. Supreme Court's worst rulings in its 200-plus year history — Roe v. Wade.  
 Public support for Roe v. Wade is typically rooted in a lack of knowledge. Ignorance intentionally fueled through obfuscation and disinformation, fostered by pro-abortion activists. Polls show conclusively that the more people learn about Roe v. Wade, the less likely they are to support it.  
 Support those who are working to stop the murder of pre-born babies.

**TCCSA'S STATEMENT OF BELIEF**  
 We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.  
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.  
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.  
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.  
 Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

**What does the Bible say?**  
 There is a way that seemeth right unto a man,  
 but the end thereof are the ways of death.  
 Proverbs 16:25
