

Monkey Business:

The History and Status of Man's Ancestor

7:30 PM, March 18, 2008, Room 116, Totino Fine Arts Center, Northwestern College

Why does almost every report on the latest "human ancestor fossil" include the sentence: "This causes major rethinking of human ancestry"? No other area of science seems to need so much rewriting with each subsequent discovery. Just how scientific and objective are the conclusions that get reported in museums, textbooks, and popular magazines? Who is this elusive apeman?

The talk reveals how this subject is the perfect opening for talking to Christians and non-Christians alike about Biblical reality, why they can trust the Biblical view of history, and their need for a Savior. From the latest fossil finds to historical blunders and intentional fraud this talk shows how the misinterpretation of Genesis has had a domino effect leading even Christians to accept outrageous "ape-fool-ary" which undermines the Christian faith.

Bruce Malone is one of our most popular speakers that your whole family will enjoy. Bring your grandparents, parents, spouse, children, grandchildren and neighbors for a great evening that you won't soon forget.

All meetings are free and open to the public, an offering will be accepted.

Have you considered...

the chicken egg. The shell has 10,000 pores so the chick can breathe. If the shell had fewer pores, the chick would suffocate. If the shell had too many pores, the shell would break from being too fragile. If you peel a hard boiled egg, you will notice a membrane. The chick has two tubes which run to this membrane that allow for the exchange of oxygen and carbon dioxide. Problem: On day number 19, not enough oxygen can get through the tubes. Solution: An air pocket at the flat end of the egg provides 6 hours worth of oxygen. The chick pecks through the membrane to get to this pocket; thus providing enough oxygen to hatch. Our Master Creator provides the final escape equipment for the chick, the egg tooth which is used to break the shell. This egg tooth was created to do this one job and then falls off. When we look at an egg, it shows design. If there is design, there must be a Designer.

...Stop and consider God's wonders. Job 37:14

(The Truth Project DVD #7)

Coming Up . . .

April 15—Richard Broadberry "Chinese & the Bible"

May 20—Russ McGlenn "Are we running out of oil?"

June 17—Neil Smith "Following the Evidence"

An ape's protest to a poacher...

Moving?
Let us know before you move so you won't miss an issue and we won't be charged for return postage. The post office does not forward newsletters, they return it to us with your new address. However, they do charge us for that service.

TCCSA's STATEMENT OF BELIEF
We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.
We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.
We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.
We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.
Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Science Fair 2008 is History
If you participated, you benefited. If you missed it, you missed something good.
We had about 30 students present their projects this year. There were hundreds of people who stopped to check out the displays. Many had questions and were able to speak with volunteers for answers.
We owe a debt of gratitude to Vince and Julie Von Vett and their team of volunteers.

<input type="checkbox"/> I want to become a member of TCCSA and I subscribe to the Statement of Belief. (Calendar year membership dues are \$20.00. Students do not pay dues.)	E-Mail: david-johnson@usfamily.net
