

## God's Design in Weather

7:30 PM, April 21, 2009, Totino Fine Arts Center, F2128 (Old Room 116), Northwestern College

Although storms, droughts and temperature extremes demonstrate the fallenness of our present world system, the design seen in weather patterns allows life to be sustained on planet earth.

Weather is more talked about than any other topic. God has arranged the weather system on the earth. There are patterns to this weather. How does a tornado form? What causes hurricanes? Why aren't raindrops larger?

Science is about finding patterns and then predicting what will happen. The study of weather allows us to think God's thoughts after Him.

Julie is no stranger to the home school movement in the Twin Cities. She home schooled her own kids and now teaches science in coops throughout the metro area and beyond. Julie heads the team that makes our annual science fair happen each February. She presents the Creation message in churches and other venues and is available to speak on many topics. Julie does her research on location, at dinosaur digs and places like Mt. St. Helens when possible. This talk will appeal to the whole family. Don't miss it!

All meetings are free and open to the public, an offering will be accepted.

### Have you considered...

...**lightning** as a super fertilizer. You may think that lightning only brings fear and sometimes destruction. What good is there in lightning? Plants need nitrogen to grow green and healthy; our atmosphere is 78% nitrogen. You may think that plants take the nitrogen directly from the air, but plants cannot. Our Master Designer has provided the means of getting that nitrogen into the plants and that is through lightning. Lightning actually converts the nitrogen in the air to nitrous oxide, which falls to the ground and enters the soil where it can be used by plants. It is estimated that electrical storms worldwide produce one hundred million tons of usable nitrogen for our plants. You could call lightning a super fertilizer! So, the next time there is an electrical storm, thank God for turning your lawn and garden green.

... stop and consider God's wonders. Job 37:14

*Weather and the Bible* by Donald DeYoung 89-90

Julie Von Vett is available to speak (651) 464-4361

### Grand Canyon Debate

May 13, 2009 at 7pm in Maranatha Hall at Northwestern College. Dr. Steve Austin, Geologist, Author and Teacher vs. Steve Johnson, Naturalist and Teacher from the Twin Cities.

Tickets are \$10 adults, \$5 students and \$25 maximum for families.

Dr. Austin will also speak at Fourth Baptist Church in Plymouth on May 13 at 10:30 AM.

### Coming Up . . .

May 19—Russ McGlenn—Mystery of the Mistreated Mummy

June 16—Brian Young – Pre-flood World

## CREATIONWISE

THE NEXT TIME YOU SEE AN IMAGE LIKE THIS...

DON'T FORGET THE REST OF THE STORY!

**TCCSA's STATEMENT OF BELIEF**  
We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.  
We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.  
We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.  
We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.  
Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

**Have you been searching for this?**  
Do you search for things on the internet? Have you tried **www.goodsearch.com**? Goodsearch works like other search engines but with a difference. For each search, a small donation is given to the non-profit of your choice. Please consider TCCSA as your non-profit of choice. Information on us and how much we have earned is available on the site if you are interested. You can make Goodsearch your home page or add it to your favorites. There is no charge to you or us when you use it.

I want to become a member of TCCSA and I subscribe to the Statement of Belief. (Calendar year membership dues are \$20.00. Students do not pay dues.) E-Mail: david-johnson@usfamily.net  
 I want to renew my membership in TCCSA (note dues above.) Mail: TCCSA
