

## ***Mystery of the Mistreated Mummy***

7:30 PM, May 19, 2009, Totino Fine Arts Center, F2128 (Old Room 116), Northwestern College

In 1967 Egypt was defeated militarily by Israel in a devastating war that lasted six days. Some likened it to the victory Moses had over Pharaoh as seen in the book of Exodus. What happened to modern Egypt pales by comparison when one looks at the literary and archeological evidence of the Exodus and how many people died as a result of the plagues God brought on Egypt.

Why is there a blackout in modern literature on what happened to Egypt in the Exodus?

Why was a mummy identified by modern scholars as "Unknown M an E" described as the most unusual mummy ever discovered from any period of Egyptian history?

Is this the son of the Pharaoh who died in the last plague that God sent on Egypt during the Exodus?

Is there any scientific evidence that Egypt was affected by a catastrophic event such as described in the Bible?

What happened to the Egyptian leadership and people after Moses left with the Hebrews?

Using several ancient manuscripts, archeological records, and over 75 colorful photos of Egyptian life, Russ will answer these questions and more to show evidence outside the Bible that corroborates the greatest disaster ever to affect Egypt.

All meetings are free and open to the public, an offering will be accepted.

And He changes the times and the seasons: He removes kings, and sets up kings: He gives wisdom unto the wise, and knowledge to them that know understanding: Dan. 2:21

### **Have you considered...**

#### **...The Sundew Plant.**

It traps insects with its long red hairs. The tips of these hairs emits a smell that entices insects to visit. Upon an insect's arrival, it gets stuck to the thick fluid on one of the leaves. Then the leaf closes around the insect and is digested. By this hunting method, the sundew has gained the essential proteins it needs for life. What an odd way of hunting, the food has to come to it! How did all these mechanisms – the exact smell for attraction, the sticky fluid on the leaf, the closing of the leaf and the right digestion chemicals - come about? If one was missing, no lunch for the plant! All had to be present from the start in order to work. Only the Master Designer could have set up this style of hunting right from the beginning.

.... stop and consider God's wonders. Job 37:14

Julie Von Vett is available to speak (651) 464-4361

### **Grand Canyon Debate**

May 13, 2009 at 7pm in Maranatha Hall at Northwestern College. Dr. Steve Austin, Geologist, Author and Teacher vs. Steve Johnson, Naturalist and Teacher from the Twin Cities.

Tickets are \$10 adults, \$5 students and \$25 maximum for families.

Dr. Austin will also speak at Fourth Baptist Church in Plymouth on May 13 at 10:30 AM.

### **Coming Up . . .**

June 16—Brian Young – Pre-flood World

July 21—A great video

August—No meeting or newsletter

For updates go to [www.tccsa.tc](http://www.tccsa.tc)

### **Writing Contest**

The annual TCCSA writing contest is open to all K-12 students. You must submit your paper by the deadline, May 15, 2009. Check the rules at [www.tccsa.tc](http://www.tccsa.tc). Some will be given the opportunity to read their paper at one of our meetings.

## Moving?

Let us know before you move  
so you won't miss an issue.  
The post office does not  
forward our newsletters.

Send your changes to the e-  
mail or street address below  
so we can update our records.  
With an e-mail subscription  
you will receive your  
newsletters anywhere you  
have internet access.

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

## Don't let your searches go to waste!

Do you search for things on the internet? Have you tried **www.goodsearch.com**? Goodsearch works like other search engines but with a difference. For each search, a small donation is given to the non-profit of your choice. Please consider TCCSA as your non-profit of choice. Information on us and how much we have earned is available on the site if you are interested. You can make Goodsearch your home page or add it to your favorites. There is no charge to you or us when you use it.

I want to become a member of TCCSA and I subscribe to the Statement of Belief. (Calendar year membership dues are \$20.00. Students do not pay dues.)

I want to renew my membership in TCCSA (note dues above).

Please keep me on your mailing list  and/or e-mail updates

I want to make a donation to help promote Creation Science.
