Vol. 36, No. 1

## The Gospel In The Stars

7:30 PM, January 19, 2010, Totino Fine Arts Center, Room F2128 (Old F116), Northwestern College

Why do cultures all over the world use the same constellations? If you were to step outside on a starry night, which dot-to-dot would you connect to make a constellation? What is surprising is that most cultures use the same star patterns. Why is that? And with these star patterns came a story. What is that ancient story? It is the gospel of Jesus Christ and this was "written" in the stars from the beginning.

Julie Von Vett homeschooled her own kids and now teaches creation science at homeschool co-ops around the metro area. Next year her lessons will be on the human body. She is willing to guest speak at churches, schools and organizations because she just loves to get the word out. She coordinates the TCCSA Science Fair on February 13, 14 at Har Mar Mall and writes the "Have you considered" article each month.

All meetings are free and open to the public, an offering will be accepted.

### Science Fair Coming

February 13 is just around the corner so now is the time to prepare. Your students will better understand the scientific method when they participate. They will choose a project, design a process, complete the process and analyze the results. Next they design a display that will show what they did, how they did it and what their results were. Finally they will be judged by what they did and how much they know about it. Their project will be on display in Har Mar Mall for two days.

Go to [www.tccsa.tc](http://www.tccsa.tc) and click on Science Fair for ideas, rules, information and registration forms. While you're at our web site check out the Writing Contest.

### Semi-Annual Election

Our By-Laws require that we hold an election for TCCSA Board Officers this month. Only paid-up members may vote. The following individuals have agreed to accept the positions listed.

President—Dave Johnson

Treasurer—Byron Twiss

Secretary—Mark Moe

Current members may nominate a member from the floor for any position. Your mailing label should say M10 after your name or you may join prior to voting. Your dues and support make our programs possible. Thank You!

### Have you considered...

...how birds "hear" blizzards coming. Birds have exceptional hearing; they hear in the infrasound range. Birds can actually hear bad weather approaching. You may have noticed that a day or so prior to a storm, birds are frantically feeding at your feeder. The birds heard the storm coming and preparing for it. Also, birds such as hawks and eagles can hear thermals. This is good because they depend on thermals to soar. Birds also can detect very minute differences in air pressure. You could say they have a barometer in their ears. Birds need to be very aware of the weather and the changes taking place in order to survive. God cares for the very life of His birds and has designed them to survive. As it says in Matthew 10:29 and 31, "Not one of them (sparrows) will fall to the ground apart from the will of your Father..." and yet we are "worth more than the sparrows."

**TCCSA's STATEMENT OF BELIEF**  
 We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.  
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.  
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.  
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.  
 Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

**Coming Up . . .**  
 Feb. 16—Dr. Michael Wise, The Dead Sea Scrolls  
 Mar. 16—Joe Taylor, Peru and the Ica Stones  
 April 20—Dr. Clyde Billington
