Programmed Filling: NOT Natural Selection

7:30 PM, March 15, 2010, Nazareth Chapel, Northwestern College, Roseville

We will learn about an important and liberating new way of looking at organisms and their environment: "Programmed Filling" - a Biblically consistent and scientifically superior paradigm that explains exactly what happens at the organism-environment interface. Three points of departure mark the old and new understanding: 1) natural selection exists only as a misleading mental construct; 2) usage that acknowledges it in any way greatly dishonors the Lord; 3) programmed filling - a God-ordained, organism-centered, purpose-driven mechanism - is reality. By recognizing the explanatory power of programmed filling, believers will actually have a communicable and scientifically accurate pushback to natural selection that is just as enlightening and easy to understand.

Randy Guliuzza M.D. from ICR is a knowledgeable and very interesting speaker.

All meetings are free and open to the public, an offering will be accepted.

Adventure Safaris Dino Dig 2011

Imagine excavating dinosaur bones that haven't seen the light of day since Noah's Flood...Russ and Tricia McGlenn with Adventure Safaris, invite you and your family on the family vacation of a lifetime! Come and experience the thrill of digging up dinosaurs, cleaning and preparing the bones for museum display. From finding the bones to seeing where they go in the museum, this truly is the best family vacation ever! Camp site included in price. One to three creation science talks a day. Cost approx. \$1,000 per family per week (\$350 for a student). Beginning July 3, 2011 in NW South Dakota.

For more information see www.tccsa.tc/adventure/dig

Them bones are waiting for you!

Writing Contest

TCCSA sponsors a writing contest for any student of any age. Deadline for papers is May 15. Winners may be asked to read their paper at a TCCSA meeting. Go to www.tccsa.tc/archives/index for rules. Our goal is to find and encourage new writers.

Coming Up . . .

April 19—Russ McGlenn, The Magnificent Monster of Manitoba

May 17—Tom DeRosa, Creation without Compromise

June 21—Brian Young, Life in Outer Space

For updates go to www.tccsa.tc

Have you considered...

...the hoatzin. This is truly a strange bird that lives in South America. It has blue skin, red eyes and a four inch Mohawk of spiky feathers on its head. The young hoatzins have claws on their wings so they can climb trees like monkeys. He is also an expert underwater swimmer before he can fly. But that is not the strange thing about this bird. Ninety-five percent of its diet is leaves. It is the only bird known to digest its food like a cow. Like other ruminates, the Hoatzin has a special chamber with bacteria to break down plant material. How do evolutionists explain this oddity? One evolutionary scientist who has studied the Hoatzin for decades said, "Hoatzins don't seem to follow the rules of evolution." Hoatzins defy evolutionary explanation. When God designed the hoatzin, He designed a creature that defies any human explanation. Truly He is a creative, imaginative God.

...stop and consider God's wonders

CREATIONWISE

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Have you checked the links on www.tccsa.tc? You can find other organizations, sources for goods, services and information that will better enable you to understand creation and our Creator.
