

## Creation Without Compromise

7:30 PM, May 17, 2011, **Nazareth Hall Blue Room**, Northwestern College, Roseville

Did God create everything in six literal days? Can evolution fit into the Bible? How well does scientific evidence and the Bible line up?

Tom DeRosa, Executive Director of CSI in Florida, will demonstrate that Genesis, God's Word is true and the scientific evidence supports it. Compromising God's Word will bring horrific consequences for the Church and the world. Tom is a nationally known speaker who has spoken and debated in the Twin Cities in the past and is extremely well received. He is able to communicate with kids and adults equally well and we encourage you to bring the whole family. Check out his web site at [www.creationstudies.org](http://www.creationstudies.org).

All meetings are free and open to the public, an offering will be accepted.

### Have you considered...

...thorns. Fossilized thorns have been unearthed and been given the date of 410 million years old by evolutionary paleontologists. Do you have a problem with that? I do! Why do we have thorns? It's because Adam and Eve sinned. In Genesis 3:17 it states, "Cursed is the ground because of you... it will produce thorns and thistles for you". According to evolution, man wasn't around until the last 100,000 years. Evolution has thorns before man, but God says man before thorns. Which is correct? The Bible is true and has been proven correct archeologically, theologically, and historically. The fossil thorns are not millions of years old; they simply formed in the Flood of Noah's day about 4,400 years ago.

**TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
