## When Vegetables Were Nutritious AND Delicious: Biblical Nutrition Based On The Garden of Eden

7:30 PM, February 21, 2012, Nazareth Hall Chapel, Northwestern College, Roseville

God created plants to be a perfect food source for all his creatures when all the creatures and all the plants were still close to their created perfection. It resulted in long and productive lives. Something happened, which the Bible describes as "The Curse," so that Noah was given permission to eat animals for food by the end of the flood.

Don Slinger is a former MN DNR officer, has an organic garden, leads fossil hunts, teaches home-school coops and summer camps. He loves spending time with his kids and grand-kids and is able to connect and communicate with people of all ages.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...the shark. You may have been aware of a shark's exceptional ability to smell. They are able to detect the smell of blood from miles away. However, are you aware of their ability to sense electricity in the water? On a shark's snout are located nerve receptors called the ampullae of Lorenzini. These tiny receptor holes allow the shark to detect the electricity given off by a beating heart. These tiny sensory receptors work with the shark's brain to give an exact location of a possible meal. Theoretically it has been determined that a shark could locate the position of a 9-volt battery over 1,000 miles away! Science has not even come close to copying such a wonder!

...stop and consider God's wonders. Job 37:14

### Science Fair

The TCCSA Science Fair for K-12 students is happening February 18-19. Students from all over the metro area and beyond will be at Har Mar Mall in Roseville. Judging is Saturday morning and their displays will remain up until Sunday afternoon.

You are invited to stop in and see what they did and how they did it. There will be many interesting projects that helped them discover our awesome Creator's handiwork.

### Writing Contest

May 15 is the deadline for submissions to the TCCSA Writing Contest. The contest is open to all K-12 students. Winners may be asked to read their paper at an upcoming meeting. Rules and information at [www.tccsa.tc](http://www.tccsa.tc).

### Coming Up . . .

Feb. 18-19 Science Fair at Har Mar Mall  
Mar. 20 Doyle Holbird—Our Deteriorating Genome

**TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

**Did you know?** Goodsearch.com is a search engine that pays non-profit organizations when people use it. In 2011 we received \$107.83. Go to their web site and make TCCSA your favorite charity. Thanks!
