June 2012

Vol. 38, No. 6

Science Fun & Archaeology: A Testimony of God's Word

7:30 PM, June 19, 2012, Nazareth Hall Chapel, Northwestern College, Roseville

Brian Young will look at people and events throughout the Old Testament and show you archaeological evidences that substantiate the Biblical accounts. In addition, there will be a number of scientific demonstrations that illustrate the truth of God's Word and reveal His power and authority in His creation. Brian is planning to make this exciting for kids too.

Discussion items:

- ◆ Did you know the Bible speaks of a 6 fingered/toed Philistine man and archaeologists found a figure of a six fingered/toed man in that area?
- ◆ How does the dating used in archaeology give us dates of 9000 years etc. if the earth is only around 6000 years old?
- ◆ Can God speak things into existence? Is there scientific support that this could happen?

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...that man was not primitive but was very advanced in knowledge and technology from the beginning? For example, ancient Egyptians had a color blue that was both beautiful and intense, not even fading under the severe sun. This color blue was used by the Egyptians and then passed to the Greeks and Romans. Around the 9th century AD the knowledge of how to manufacture it was lost. It was not until the 19th century when Pompeii was uncovered that a small pot of it was found. Egyptian Blue is calcium copper tetrasilicate. Samples contain silica, calcium oxide and copper oxide. The compound was mixed together in fairly precise amounts. This mixture was heated to 1650 F (900C) for many hours. The ancient Egyptians used chemistry to create this intense non-fading color blue. Primitive? Hardly! God created Adam intelligent. In Genesis 4:20-22 mankind is described as having knowledge in livestock, metalworking and music. After the Flood, man displeased God by building the tower of Babel so man was dispersed. Some of Noah's descendants moved to Egypt with knowledge and technology of the pre-flood world. This explains why ancient civilizations, like Egypt, seem to spring up overnight. Egyptian Blue is one more testimony that man was highly skilled right from the beginning giving proof that the Genesis account is true.

...stop and consider God's wonders. Job 37:14

"Egyptian Blue," Patrick Clarke, Creation 34 (1) 2012, p. 18-19

We are considering the purchase of listening devices of people with hearing loss. Please let us know if you have trouble hearing the programs so we can get an idea of how many receivers are needed. That will help us know what a system will cost. Thanks

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.
 Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Did you know? Goodsearch.com is a search engine that pays non-profit organizations when people use it. In 2011 we received \$107.83. Go to their web site and make TCCSA your favorite charity. Thanks!
