Vol. 39, No. 5

The Universal Force:

Derived From a More Perfect Union of the Axiomatic and Empirical Scientific Methods

Tuesday, May 21, 6:00, Totino Fine Arts Bldg, Room F2128, Northwestern College, 3003 N Snelling, Roseville

This is the first of two programs this evening. Dr. Bill Lucas will present this talk at 6 and will make it a bit more technical than our regular meeting at 7:30.

Following the guidelines of Sir Isaac Newton, an improved version of electrodynamics has been derived which is able to replace Maxwell's Electrodynamics, Einstein's Special and General Relativity Theories and the quantum theory of elementary particles, atoms, and molecules. Evidence is given via diagrams and pictures that the symmetry found in the improved version of electrodynamics is present in all elementary particles, atoms, nuclei, molecules, crystals, plant flowers, plant leaves, plant seed pods, orbits of planets and moons in our solar system, structure of the Milky Way Galaxy, and the structure of the universe as a whole.

Dr. Lucas does a good job of simplifying complex ideas but this may be over some heads.

Fingerprints of the Creator: the Source of All Beauty

Tuesday, May 21, 7:30, Totino Fine Arts Bldg, Room F2128, Northwestern College, 3003 N Snelling, Roseville

Arguments from the Bible as illustrated in famous Christian art will be presented that God interacts with His universe via electrodynamic means in both the Old and New Testaments in a way that is compatible with a universal electrodynamic force. The Bible is used to show that God has a unique symmetry that is identical to the symmetry of the universal force. This symmetry is also displayed in the Old Testament Tabernacle and Temple and the New Testament Church. It is displayed in the Hebrew language of the Old Testament and the Greek Language of the New Testament. This symmetry is God's fingerprint as creator. According to the dictionary this symmetry is also the source of all beauty in nature. This insight enables Christians and Jews to understand the mystical beauty of God's covenants and his plan of salvation.

We encourage everyone to attend this one even if you don't come to the earlier session.

All Meetings are free and open to the public, an offering will be accepted.

Writing Contest ends May 15

All Students K-12 who can write are encouraged to participate in our writing contest. Rules can be found at tccsa.tc/archives/contest/index.html. Our goal is to help your students become the next generation of writers from a Christian perspective. We want future writers to be grounded in what the Bible actually says. Without a background in what God tells us in His Word they won't be able to tell fact from fiction.

Moving?
 Let us know so you won't miss out! The Post Office returns these newsletters so we can update your address, but they charge us postage for each return. Help us save by letting us know ahead. You can also convert to email so it goes where you go. Thanks

Have you considered... ...the planet Mercury as a testimony to creation. Back in 1974-75, space probe Mariner 10 discovered that Mercury had a magnetic field. Thirty-six years later space probe Messenger documented that Mercury's magnetic field strength had fallen 8%. This means that the magnetic field on Mercury has a half-life of about 320 years, in other words every 300 years or so Mercury loses half the strength of its magnetic field. If Mercury is billions of years old, as evolutionists' state, then its magnetic field should be entirely gone! Creation scientist, Dr. Russell Humphreys, of course predicted such a measurement; he was using a creation model. (He also predicted correctly the strength of Uranus and Neptune's magnetic fields before spacecraft visited them.) But of course, Dr. Humphreys would be correct, he used a creation model. The universe is young, just as the Bible says. Mercury's magnetic field is a testimony to creation!

...stop and consider God's wonders. Job 37:14f

If we haven't heard from you for several years, we may remove your name from our mailing list. Please let us know if you want to remain on our newsletter list. On your mailing label there is a letter and a number following your name. The number is the year we last heard from you. R05 = 2005, M10 = 2010 The M number shows the most recent year you were a member.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Help !

We sometimes have requests for rides from people who are unable to drive. Currently someone in Hopkins is looking for a ride to our meetings. Let us know if you can help. Contact info below.
