## Why is Creation Important in Evangelism?

Tuesday, June 17, 7:30, Nazareth Hall Chapel, Univ. of Northwestern, 3003 N Snelling, Roseville

Why does it matter what we believe when it comes to the Bible and Creation? How does what we believe about Creation affect the Gospel? Why is evangelism so scary? Why does it seem that so many in this country have heard the gospel but aren't paying any attention to it? How can I share my faith effectively using the creation message? Come and hear these questions answered and be prepared to be empowered, motivated, educated, entertained, and revived when it comes to your understanding of creation and evangelism. We will meet in the Chapel this month with lots of room to bring friends and family.

Brian Young, an internationally known speaker and author, was a teacher and principal for ten years before becoming director of Creation Instruction Association. He has now been speaking on the topic of creation and Biblical authority for 20 years, doing debates at Universities, going into prisons, and sharing at churches, schools and camps around the world. He uses the Bible as the foundation for science and education. He's a favorite of kids of all ages with the noises and wild things he produces. Bring a friend.

All meetings are free and open to the public, a free-will offering will be accepted.

## Have you considered...

...the earthworm. These amazing animals create an environment that helps plants grow by plowing, aerating, and fertilizing the soil. Earthworms dig burrows which help bring water and air throughout the soil. To eat, earthworms drag lots of plant matter such as old leaves and grass down into their burrows, which they eat along with huge amounts of soil. It has been found that 90% of the fallen leaves in an orchard are dragged down into the ground by earthworms. The food is then digested with the remains "cast" onto the surface of the ground in small balls. These worm castings are high in nitrogen which is vital for plant growth. An acre of land contains an estimated three million earthworms aerating and fertilizing the soil. It is said, given 300 to 400 years, the whole earth surface down to 16 inches has moved through an earthworm's gut. How does evolution explain these tireless tillers of soil? Did earthworms decide to eat lots of plant material with tons of dirt so that we could have nitrogen for our plants? God the designer knew that for us to exist on Earth we needed plants. So God created these little creatures to plow, aerate, and fertilize the soil.

...stop and consider God's wonders. Job 37:14

## Creation Weekend

Churches in our area are starting to have annual Creation programs for 1, 2 or more days. They may use videos and/or local speakers or bring one in from a distance. You might consider having one at your church. TCCSA has a list of local speakers available on our web site <http://tccsa.tc/speakers.html>. Most people in your church do not understand how this impacts their lives and what the Bible says about it.

# CREATIONWISE

**Church Point People Wanted**  
 We would like someone in each church who can promote biblical creation in your congregation. Put up a poster, provide literature to interested people and/or car pool to meetings.

1. You are a Christian
2. Have a desire to promote creation science
3. Do not need to be a leader
4. Need only a basic understanding, not be an expert
5. Have a desire to learn more about creation science
6. Invite speakers or show videos. We can help.

If you are interested in becoming involved let us know so we can provide information and discuss ways to help your church family.  
 david-johnson@usfamily.net

**Moving?** Let us know so you won't miss out! Help us by letting us know ahead. You can also convert to email so it goes where you go. Thanks

If we haven't heard from you in several years, we may remove your name from our mailing list. Please let us know if you want to remain on our newsletter list. Your mailing label has a letter and a number following your name. The number is the year we last heard from you. R05 = 2005, M12 = 2012. The M number shows the most recent year you were a paid member. Members get additional discounts on many things on our book table which are already discounted. Membership also gets you a free DVD at the book table, ask if you paid by mail.

If you join by mail, request your free gift at your next meeting.

Have you wished you had a copy of a TCCSA program that you missed or want to share? Most of our programs have been recorded and are available from Lehrke Productions. They may be purchased at our meetings or from [LLL@mntelelevision.com](mailto:LLL@mntelelevision.com).

**TCCSA's STATEMENT OF BELIEF**  
 We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.  
 We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.  
 We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.  
 We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.  
 Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
