

# CREATION BULLETIN

July 2014

Vol. 40, No. 7

## Illustra Media DVD *“Flight”*

Tuesday, July 15, 7:30, Totino Fine Arts Center, Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville

You'll marvel at a hummingbird's unique skeletal, muscular, and metabolic systems all vital to its spectacular aerial acrobatics; the endurance and navigational abilities of an Arctic tern as it travels from pole to pole during the longest migration on the planet; the instinctive strategies that enable a flock of 300,000 European starlings to evade predators at break-neck speeds; the elaborate network of a million component parts that make a single feather an aerodynamic masterpiece, and much more.

The poet William Blake wrote that to see an eagle in the air is to observe a portion of genius. In FLIGHT the ingenuity of a bird's behavior and biology showcase unmistakable evidence for design, purpose, and plan. It is evidence best explained by an intelligence that transcends the natural world.

All meetings are free and open to the public, a free-will offering will be accepted.

### Have you considered...

...scientists recently uncovered five octopus fossils. Octopuses are soft bodied animals and remarkably each octopus had eight of its arms fossilized with traces of muscles and rows of suckers. Some even had internal gills and ink fossilized! Today when an octopus dies it does not exist for very long, it decomposes into a slimy blob and within days, scavengers and bacteria cause it to disappear. For an octopus to fossilize would take very special conditions: fast, deep coverage with no oxygen. These special conditions would have been met in the Flood of Noah's day.

Furthermore, these five octopuses were enclosed in limestone. Limestone is considered by evolutionists to take long periods of time to form. During the Flood of Noah's time conditions would have been right for rapid limestone formation. Fossils continue to give evidence that the Flood of Noah's day did occur.

**...stop and consider God's wonders. Job 37:14**

### Use Creation in Your Church

Churches in our area now use Creation programs in their ministry. They use videos and/or local speakers or bring one in from a distance. You might consider having one in your church. TCCSA has a list of local speakers available on our web site <http://tccsa.tc/speakers.html>. Brian Young's talk last month showed the reasons for using Creation in evangelism both inside and outside your church. Many of our speakers are available for other venues while they are in the Twin Cities. Ask how we can help.

This is the day that the Lord has made,  
I will rejoice and be glad in it.

**Church Point People Wanted**

We would like someone in each church who can promote biblical creation in your congregation. Put up a poster, provide literature to interested people and/or car pool to meetings.

1. You are a Christian
2. Have a desire to promote creation science
3. Do not need to be a leader
4. Need only a basic understanding, not be an expert
5. Have a desire to learn more about creation science
6. Invite speakers or show videos. We can help.

If you are interested in becoming involved let us know so we can provide information and discuss ways to help your church family.

**Moving?** Let us know so you won't miss out! Help us by letting us know ahead. You can also convert to email so it goes where you go. Thanks

If we haven't heard from you in several years, we may remove your name from our mailing list. Please let us know if you want to remain on our newsletter list. Your mailing label has a letter and a number following your name. The number is the year we last heard from you. R05 = 2005, M12 = 2012. The M number shows the most recent year you were a paid member. Members get additional discounts on many things on our book table which are already discounted. Membership also gets you a free DVD at the book table, ask if you paid by mail.

If you join by mail, request your free gift at your next meeting.

**TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths.

We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds.

We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect.

We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind.

Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Have you wished you had a copy of a TCCSA program that you missed or want to share? Most of our programs have been recorded and are available from Lehrke Productions. They may be purchased at our meetings or from [LLL@mntelelevision.com](mailto:LLL@mntelelevision.com).
