## How Did Noah Build the Ark?

Tuesday, October 20, 7:30, Nazareth Hall Chapel, Univ. of Northwestern, 3003 N Snelling, Roseville

With Noah's pre-Flood intelligence, his focus on the purpose God assigned for his life, and communication with the Creator Himself, he was able to complete the construction of the Ark from the basic instructions we find in Scripture. There is evidence that ships approaching the size of the Ark have in fact existed in ancient times. The ancient Greeks built a ship named Syracusia (or Alexandris) that carried around 4,000 tons of cargo. The pre-modern Chinese also built giant wooden ships. The 15th-century sea-going junks of the ambassador Cheng Ho approached the size of the Ark (John Woodmorappe, "Noah's Ark Feasibility Study," Dallas, TX: Institute for Creation Research, p. 50). Dr. Carl Baugh of Creation Evidence Museum is our speaker— should be very good. All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...Painted lady butterfly migration. Many have heard of the monarch butterfly migrating some 4,000 miles from Canada to Mexico and back but have you heard of the painted lady butterfly migration? This butterfly migrates between Europe and Africa and back, flying an incredible 9,000 miles round trip! Why has this not been discovered until recently? Because they fly at altitudes up to 3,000 feet and at speeds of 30 mph. Radar is what revealed the millions migrating. Radar with citizen scientists verified the migration. More than 60,000 sighting of painted lady butterflies revealed that they fly as far north as the Arctic Circle. The 9,000 mile round trip migration takes a number of generations. Over a year, up to six successive generations migrate. For example a butterfly might fly from Norway to Britain where it will breed and die, the next generation will carry on the migration to Africa. This tiny creature weighing less than a gram with a pin-sized head having no opportunity to learn the migration route from an older butterfly, undertakes this epic migration! How do they know where to go? Evolution says this all happened by chance. How could it? How would the painted lady evolve the ability to fly to a place they have never been before? God set this up from the beginning to show his great power. God has bound the information into the genetic code of each butterfly so that each "knows" at what stage of the migration cycle the butterfly is in. This information is passed on to each generation. Such a delicate mechanism shouts intelligent design!

...stop and consider God's wonders

### Get Involved

Do you want a voice in planning programs for TCCSA? We are looking for more members of our board of directors, to help with planning and making it happen. All board members are volunteers who love the Lord and believe His Word. We meet 6 times a year and communicate via email between meetings. We currently meet the first Thursday of odd numbered months. Let us know if you are interested or would like to attend a board meeting to check it out.

Note; the President, Secretary and Treasurer are elected positions. Elections are held during the regular monthly meeting in January of even numbered years. Only Paid members are allowed to vote.

### Coming Up (Lord Willing) . . .

Nov. 17—Dr. Randy Guliuzza, Engineered Adaptability  
Dec.—No meeting or newsletter  
Jan. 19—Ross Olson, Did the Sun really stand still?  
Feb. 16—Robert Stadler, Genetic Evidence for Evolution  
Mar. 15—Steve Law, Patterns of Evidence—Exodus Pt.2.  
Check for updates at [www.tccsa.tc](http://www.tccsa.tc)

### FIND US ON THE WEB [www.tccsa.tc](http://www.tccsa.tc)

#### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

#### Adventure Safaris

Noah picks up a little cash before the ark is complete...

#### Moving?

Or if you will be away for an extended period. Maybe you're a snow bird heading south for the winter or visiting family for a few weeks. Let us know so you won't miss out! The Post Office returns newsletters so we can update your address, but they charge us for each return. Help us keep our costs down so we can spend productively.

This newsletter is also available as an email? You not only receive your newsletter faster, we send a reminder a couple days before the meeting. We include late-breaking news and activities in the reminder. Let us know if you would like to be included on our email list. We won't share your information with anyone.
