## Dinosaurs; the Real Story

Tues, June 21, 7:30, Riley Hall R2300/2308, Univ. of Northwestern, 3003 N Snelling, Roseville

Please note, Totino Fine Arts building is under construction this summer so we will not be meeting there until school starts again. We thank Northwestern for providing rooms for our meetings.

Did dinosaurs have feathers? Is this proof of evolution? Could dinosaurs have lived with humans? What does the Bible say about this? Come hear the truth about dinosaurs and their descendants and what motivates evolutionists to continue to push the dinosaur/bird connection.

Brian Young is a favorite with kids of all ages. He has obliterated a pop can with a ping pong ball, created explosions and shot smoke rings at people. What will he do thing time? His talks are always interesting and his show and tell stuff is outrageous. Brian is an internationally known speaker and author, was a teacher and principal for ten years before becoming director of Creation Instruction Association based in Juniata, Nebraska. All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

What do Australian Aborigines and people of India have in common? Apparently they are related. Recent genetic testing found strong DNA similarities between them. The large number of similar genetic markers across the genome gives a clear signal that the people of India and Australia had contact with each other around 4,000 to 5,000 years ago. This would also help explain the reason for so many linguistic similarities existing between the peoples of southern India and many of the Aboriginal tribes. How is this viewed from a Biblical perspective? After the Flood of Noah's time the people built a tower of Babel and then were dispersed (Genesis 10, 11). The dispersion of the people from the tower of Babel happened about 100 years after the Flood or about 4,500 years ago. Some traveled to India and then on to Australia. The DNA confirms the migration and the dates they migrated. Science finally catches up with the Bible.

"Therefore is the name of it called Babel; because the LORD did there confound the language of all the earth: and from thence did the LORD scatter them abroad upon the face of all the earth." ~ Genesis 10:9

#### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
