## The Heavens Declare the Glory of God

Tues, July 19, 7:30, Nazareth Hall Chapel, Univ. of Northwestern, 3003 N Snelling, Roseville

Did God create the Universe, as the Bible says? Or did the Universe form itself in a Big Bang event instead? A close look at scientific literature reveals a surprising truth: Secular astronomical models cannot explain the origins of things we see in space, including stars, galaxies, the planets, and indeed, the entire cosmos itself. In this presentation, full of photographs and graphics from NASA and other sources, you'll see that the Universe is inconsistent with random evolutionary models. Instead, the heavens declare the glory of God. Our guest speaker, Spike Psarris, was an engineer in the US military space program. He entered that program as an atheist and an evolutionist, and left as a creationist and a Christian. He now speaks on science, creation, and the Bible, and is the author/producer of the DVD series "What You Aren't Being Told About Astronomy."

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...clockworks in space? Starting with our own solar system, we find the planets orbit all the same way, in an anticlockwise direction as viewed from above. Each planet's orbit is stable and precise. If the planet did not have orbital motion, the Sun would pull them in and burn them up. The orbit being nearly circular keeps planets from straying into another planet's orbit. All the planets orbit the sun in about the same plane (called the ecliptic), this allows for easier location from earth AND for the large gas giants to protect earth from comet-sized bodies.

The Milky Way Galaxy also shows clockwork motion. The stars in our galaxy orbit the central hub in such a manner that gravity keeps the stars in a stable orbit. These billions of stars all travel in the same direction thereby preventing collisions.

Clockwork motion cries out that there must be a clock-maker. We do not say a clock made itself. Clockwork motion means there is One who is a clockmaker and that One is God. The heavens do declare the glory of God!

~ The heavens declare the glory of God. Psalm 19:1

### Prayer Request

Linda Lehrke, our videographer, and her husband are both experiencing health issues. Please pray for Linda and Rod. Thanks

### Another Activity this Month

6th Annual: Science & Bible—21st Century Understanding with Spike Psarris and Don Slinger. Saturday, July 16, 2016, 8:50 am - 12:00 noon, St. Lucas Church Community Church, 1195 Manning Ave. N., Lake Elmo, MN 55042 [http://tccsa.tc/notices/st\\_lucas\\_2016.pdf](http://tccsa.tc/notices/st_lucas_2016.pdf)

### Coming Up (Lord Willing) . . .

August—No meeting or newsletter

Sept. 20—Russ McGlenn, The Drake Equation

Oct. 18—Dr. Glen Collins, Understanding how our world works

Nov. Charles Jackson, DNA—The Language of Life

#### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
