

# CREATION BULLETIN

October 2016

Vol. 42, No. 9

## Two meetings this month with Dr. Glen Collins

7:30 PM, Totino Fine Arts Room F2128, Univ. of Northwestern, 3003 N Snelling

### Monday Oct. 17—Artificial Intelligence ... and Real Ignorance

Will AI "take over the world" and displace humans on an increasing basis? This presentation will briefly review the current state of AI implementations and developments, noting what can, and still cannot, be done using AI, with some perspectives on what the future may hold.

### Tuesday Oct. 18—Subatomic Structure ... and What's the Matter?

As with atomic-level solids, liquids and gases, the subatomic realm is also structured, much more so than has been believed for the last 100 years. This presentation will describe the structures and shapes at the electron and proton level using the models developed by Common Sense Scientists Lucas and Bergman.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...the chickadee's feet? Why don't his feet freeze off during the winter? In fact, why don't any of the birds lose their feet during brutally cold winter days? God designed these bird's feet with a unique heating system. Bird's have a network of arteries that take 106 degree blood down to their feet. This close network of arteries and veins, called a "wonder net," enables the blood to be warmed before entering the body and the feet never get dangerously cold. If evolution were true, how many feet had to freeze off before the bird got it right? NO, the bird's feet were designed by the Master Designer. That is why we see winter birds with feet intact. The next time you see a bird at your bird feeder, consider the chickadee's feet.

For more interesting creation facts check out *Letting God Create Your Day* vol.4 from [www.creationmoments.com](http://www.creationmoments.com). Since 2005 Julie Von Vett has been writing these articles for us. She co-authored *Inspired Evidence, Only One Reality* and her next book is due out very soon.

#### Prayer Requests

Linda Lehrke, our videographer, and her husband are both experiencing health issues. Please pray for Linda and Rod.

Trisha McGlenn is experiencing medical problems making it impossible for Russ to be here in September. Please keep them in prayer also. Thanks

#### Coming Up (Lord Willing) . . .

Nov. 15—Helmut Wilke, Human Genetics and the Bible

Dec.—No meeting or newsletter.

Jan. 17—Dr. Rob Stadler, Scientific Approach to Evolution

Feb. 21—Brian Lauer, TBD

Check for updates at [www.tccsa.tc](http://www.tccsa.tc)

New Book available

Dr. Rob Stadler will be speaking to us in January but his new book just came out. *The Scientific Approach to Evolution* is available from [www.scientificevolution.com](http://www.scientificevolution.com)

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
