

CREATION BULLETIN

July 2017

Vol. 43, No. 7

The Illusion of Evolutionary Deep Time

July 18, 7:30 PM, Totino Fine Arts Room F2128, Univ. of Northwestern, 3003 N Snelling

Sal Giardina discusses the four lines of current evidence supporting the Biblical Creation timeline.

1. Does the Bible actually contain a timeline of Earth's history? Numerous biblical scholars have independently unlocked the historical timeline of Creation to Christ.
2. Does the fossil record speak to us? Completely mineralized fossil remains retain details on a cellular level throughout the entire Geologic column. The mixture of marine and continental fossil remains from diverse ecosystems in the same strata supports the Biblical flood.
3. What do the rocks of the Earth say? The illusion of Para conformities along with worldwide occurrence of sand injectites require a re-thinking of "Deep Time".
4. How about all the soft tissue preservation now being discovered? No longer deniable- the number of discoveries of original bio-organic tissues in so called ancient fossils is troubling to evolutionists. Proposed mechanisms of preservation are not reality oriented.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

...that reindeer eyes change color for the seasons? Arctic Reindeer live in an extreme environment, winters are dark while summers have almost 24 hours of sunlight. It has taken researchers 12 years to discover how reindeer change their summer eye color from golden to winter's eye color of deep blue. In the back of the eye is a tapetum lucidum which reflects light back into the eye for a second time. We see this with animals such as cats and deer, their eyes "glow" at night. Reindeer eyes have this tapetum lucidum but theirs actually change the eye color. In the dark Arctic winter, a reindeer's eyes need to be fully dilated to allow as much light in as possible, this puts pressure on the eye which affects the spacing between the collagen fibers in the tapetum lucidum causing the fibers to push together resulting in the eye color going from gold to deep blue. This shift to blue increases the scattering of reflected light which activates more photoreceptors in the eye giving the reindeer the ability to see in dim light. Then in the summer, with up to 24 hours of sunlight daily, the eye color changes back to a golden color. God's ingenuity is truly amazing!

"For who has known the mind of the LORD,..." ~ Romans 11:34

Catchpoole, David. (2017, July-September). *Reindeer Eyes*. Creation magazine 39(2). back cover.

Did you know that TCCSA with your support has been used to help supply books to 20,000 students in Fiji? Earlier this year Bruce Malone and Carl Baugh delivered 20,000 copies of *Inspired Evidence* to this island nation. They spoke to 15,000 students and 13,000 made a decision for Christ. Your support made it possible for about 1,000 of those books to be delivered. Funding is now being raised to supply these books to every student in the whole country, over 300,000 young people. Pray that this will happen soon.

Coming Up (Lord Willing) ...

August 15—Neil Smith, Dragons: Myth or History?
Sept. 19—Russ McGlenn, The Drake Equation....
Oct. 17—Richard Broadberry, God's Promise to the Chinese
Nov. 21—Jay Seegert, Faith is Not a Four-Letter Word

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
