CREATION BULLETIN

June 2018

Vol. 44, No. 6

Science and the Age of the Earth

June 19, 7:30 PM, Totino Bldg. Room F2128, Univ. of Northwestern, 3003 N Snelling, Roseville, MN

Helmut Welke is a retired engineering manager who is the founder and president of Quad-City Creation Science Assoc. and a member of CRS and a speaker for Logos Research Assoc.

This talk will review the origin of the idea of Millions of years and the methods of Carbon-14 dating. Several other scientific findings that pertain to the age of the earth including some startling results will be discussed.

All Meetings are free and open to the public, an offering will be accepted.

Have you considered...

... shale, the rocks made of mud (mudrock)? Try this experiment: place in a jar of water, dirt made of mud, silt, and sand; now shake, watch how the sand and silt particles fall rapidly to the bottom and then notice how the mud stays suspended in the water. Mud particles are thin and flat, like snowflakes, taking a long time to settle to the bottom. This experiment led scientists to believe that shale layers like the 500 foot thick Bright Angel Shale in the Grand Canyon or the 900 foot thick Marcellus Shale in the Pennsylvania area took millions of years to be deposited. **HOWEVER**, geoscientists have newly discovered that if the mud particles are in **rapidly moving water** they settled quickly. Scientists used a racetrack flume in which water and dirt flowed around and around in a circle. They found as the water accelerated, it caused the mud particles to be deposited rapidly, the same as sand particles.

How was this possible? Fast moving mud particles clumped together becoming the size of sand grains. Mud particles have a weak residual electrical charge, in fast moving water, these tiny mud plates were forced so close together that the oppositely charged particles attracted causing the mud to clump. The clumped mud settled quickly resulting in mud layers forming quickly. Mudrocks (shale) make up most of the geological rock layers, more than limestone and sandstone. Scientific evidence is showing mudrock layers can form in minutes in high energy conditions; it does not take millions of years! Was there a world-wide Flood resulting in formation of layers of shale, limestone and sandstone? Science is finally catching up with the Bible!

Snelling, Andrew - Mudrocks in Minutes, 2018 May-June *Answers Magazine*, pp 38-39

TCCSA Videos on YouTube

Some of our past programs are now on YouTube with more added as time permits.

Links at tccsa.tc for your convenience.

We still make DVD's available at our meetings or by mail for those who prefer them.

Contact information on other side of newsletter.

Fiji Update

The amazing story of how a book has impacted an entire country is continuing. The team plans to return to the island nation in October to continue distributing ***Pearls in Paradise*** books to every student in each school. Pray that God will continue to use the books for eternal benefits.

Coming Up (Lord Willing) . . .

July 17—Dr. Joseph Kezele, You've Come a Long Way, Baby

Aug. 20,21—Dr. Kevin Anderson, 2 nights, 2 programs

Sept. 18—Russ McGlenn, Marco Polo & Chinese Dragons ...

Oct. 16—Dave & Mary Jo Nutting, God's Design in Life

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

RETURN SERVICE REQUESTED

Most of our past programs are available on DVD from
david-johnson@usfamily.net
or at the above address. DVD's will be for sale at our meetings as they are completed. Let us know if you desire a specific program.

Moving or away from home?

We request newsletters be returned with address corrections so we can update our list. Each return costs us postage. If you are moving or will be away for more than a month please let us know. It will save us \$ and you won't miss any issues. You can also sign up for email delivery which you can receive anywhere you go.

Adventure Safaris

This newsletter is also available as an email? You not only receive your newsletter faster, we send a reminder before each meeting. We include late-breaking news and activities in the reminder. Let us know if you would like to be included on our email list. We never share your information with anyone.
