CREATION BULLETIN

February 2020

Vol. 46, No. 2

Those Incredible Birds

Tuesday February 18, 7:30 PM, Totino Fine Arts Bldg., Room F2106 Univ. of Northwestern, 3003 N Snelling
Julie Von Vett is back with another incredible talk on God's incredible creation. Julie is always enjoyed by kids of all ages so invite the whole family and your friends to come, you won't regret it.

Birds are among the most beautiful and loved parts of God's creation. What makes a bird a bird? Its ability to fly, so how are they able to do this? Every part of a bird is a marvel of intricate design. Come and hear of its special designs from its feathers to its breathing system.

Many birds migrate. Migration is still a mystery; how do they do it? Do birds see the same colors as humans? What about bird songs? As God asked Job "But ask the animals, and they will teach you; or the birds in the sky, and they will tell you; Which of all these does not know that the hand of the Lord has done this?" (Job 12:7,9)

All Meetings are free and open to the public, an offering will be accepted.

Have You Considered ...

... Sleep is good for the brain? Recently it was scientifically discovered that sleeping rejuvenated the brain, but of course, your mother always said, "Get a good night's sleep" and she was right. Our brains use about 20 % of our energy even though it makes up only 2% of our body weight. With all that energy use, there must be a waste product. So how is the waste cleaned out? The rest of our body uses the lymphatic system to remove waste, but our brains do not contain lymph. Our brains and spinal column contain cerebrospinal fluid (CSF). When we sleep the cerebrospinal fluid flows through the brain removing the waste, even the plaques associated with Alzheimer's disease! While we sleep, the brain's cells shrink allowing the CSF to flow around the cells collecting the waste which is then transferred to the blood for processing. It was found that CSF moved only when the person was sleeping, very little CSF was moving during wakeful times. What a beautiful design to clear our thoughts! When you see a design there must be a Designer and the Designer is God.

"... when you lie down, your sleep will be sweet." Proverbs 3:24b (ESV)
"Sleep Rejuvenates the brain" *Creation Magazine* 37(4)2015: 9.

Please pray for the team in Fiji the first 2 weeks of February. They are showing how science and the Bible are compatible, to students in remote areas. There is always kickback from the evil one so pray for health, safety and a good response. Bruce Malone's talk in November included info on Fiji, see it on YouTube.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

Moving or traveling?

Newsletters are returned with address corrections so we can update our list. Each return costs us. If you are moving or will be away for more than a month please let us know. It will save us \$ and you won't miss any issues. You can also sign up for email delivery, available right away, anywhere in the world at no cost.

This newsletter is also available as an email? You not only receive your newsletter faster, we send a reminder before each meeting. We include late-breaking news and activities in the reminder. Let us know if you would like to be included on our email list. We never share your information with anyone.
