

Myth and Mystery of the Minnesota Glaciers

Tuesday September 21, 2021, 7:30 PM, 3003 N. Snelling, Roseville, Totino Fine Arts Center F2106

Was Minnesota really cut gouged and bulldozed by glaciers? Is there scientific evidence for this? There are 10 geological formations that are said to be made by glaciers. Everyone of them can be accounted for by a world wide Flood.

When a parent asked for a place to show his kids evidence for glaciers having been in Minnesota, the head of the DNR said "There is no place" In spite of no scientific evidence, students in the Midwest have been taught for over 100 years that the land was crushed, gouged, and bulldozed by glaciers for millions of years.

Russ McGlenn will draw from years digging dinosaurs in the Badlands as well as visiting glacier-made geology in Minnesota. This presentation will be available in-person and via ZOOM. A recording will be available on our YouTube page and on DVDs. A ZOOM link will be sent via email prior to the meeting. Have you considered...

...ancient Egyptians with memory of Noah? Scripture teaches us that eight people were saved from the worldwide Flood aboard the Ark: Noah, his wife, 3 sons and their wives. Eight total. Egyptologists have discovered in Egypt's oldest inscriptions, the Pyramid Texts, eight gods call the Ogdoad. Four males and their wives. The chief god is Nu and his wife is Nu.t. They were worshiped at a temple (now gone) at El Ashmunein- "Eight City" in Coptic (Hermopolis-Greek) (Khemenu). The Egyptian Pyramid Text shows Nu standing in the waters of chaos, holding up a barque (type of boat) of the sun with seven other deities. The Book of the Dead records the reason for this Flood, "They have done evil, they have formed rebellions, they have caused slaughter...yet, you (Nu) shall not see evil, you shall not suffer. Their years are limited, their months are closing in... and I shall indeed destroy all I made, and this land shall turn into Nun, as a floodwater, as in original condition."

How did this information get to Egypt? Noah had three sons, one named Ham. Ham had four sons, one named Mizraim. Mizraim is the Hebrew name for Egypt in the Old Testament. In the Psalms, Egypt is called the "land of Ham". Ham's family settled in this region after the tower of Babel, taking the memory of Noah and the flood. Based on Genesis 9:20-27, Ham's family slipped into apostasy. The Flood account became corrupt yet, we still find echoes of Genesis in Egyptian history.

TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
