### Virtual Creation Tour of Yellowstone National Park

Tuesday October 19, 2021, 7:30 PM, 3003 N. Snelling, Roseville, Totino Fine Arts Center F2106

Massive volcanic eruptions resulted in today's amazing features at Yellowstone National Park. For many years, Dave and Mary Jo Nutting of Alpha Omega Institute have been leading Creation tours to this fabulous place which is unlike any other national park. Dave's beautifully illustrated PowerPoint presentation gives you a chance to virtually tour many of the geyser and hot spring sites as well as the wildlife that inhabit that region. You will see many evidences for design in those animals and also see how God has made beauty out of destruction, understand the timeframe that formed Yellowstone including the Flood, volcanics, tectonics, glaciation, formation of the Grand Canyon of the Yellowstone -- all the way up to present.

This presentation will be available in-person and via ZOOM. A recording will be available on YouTube and Rumble and on DVDs. A ZOOM link will be sent via email prior to the meeting. If you are not yet on our email list, request it from david-johnson@usfamily.net.

Updates at [www.tccsa.tc](http://www.tccsa.tc)

All meetings free and open to the public.

Have you considered...

...Autumn leaves? As summer comes to an end, the deciduous trees start preparing for winter. The key factor for starting this process is the decrease in the amount of sunlight. (A second factor is the cool weather). As the sunlight decreases, the abscission layer starts forming between the stem and the branch. The flow of water to the leaf and the flow of sugar out of the leaf begin to stop. Chlorophyll, which causes the leaves to be green, fades away which causes the hidden colors to show- orange or yellow. The red leaves are formed by the extra sugar that the leaf makes and cannot get out (due to the abscission layer). God could have made all deciduous trees turn from green leaves to brown leaves; there is no purpose for the reds, yellows or oranges, other than beauty. Why did He not make the tree leaves just wither away into drabness? God is a God who loves beauty; maybe God made autumn leaves beautiful just for the sheer joy it. As you look at this autumn's cacophony of colors –the reds, yellows and oranges - enjoy the beauty that God created.

We are starting to gain some attendance at our meetings each month but are still less than 50. Our meeting room seats about 200 so there are plenty of seats where you can spread out as much as you like. This month Dave and Mary Jo Nutting plan to be with us in person. They are always interesting and this will be a great time to see friends you haven't seen for many months.

Live Zoom participation is also available if something keeps you from attending in person. We mail a reminder a few days before the meeting and include the Zoom link. We are thankful that many are attending via the internet and others watch later on YouTube and now also on Rumble. One of our audio talks was removed by YouTube because of non-PC content. Links to both are on our web site. [www.tccsa.tc](http://www.tccsa.tc)

#### Coming Up (Lord Willing)

Nov. 16—Don Slinger, Mt. St. Helens update

December—No meeting, Celebrate Our Creator

Jan. 18 —TBD

Feb. 15—Richard Broadberry, tentative

#### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.
