

# CREATION BULLETIN

June 2023

Vol. 49, No. 6

## Physics Today--And What's Still The Matter ?

Tuesday June 20, 2023, 7:30 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

Dr. Glen Collins will be attending remotely via Zoom for this and next month. He will be updating us on what is happening in Physics as interpreted by scientists from Common Sense Science. His presentation will be live streamed and on the large screen at Northwestern. Dr. Collins is able to explain in laymen's terms some very technical research. Most of the people who attend our meetings will be able to follow what he will tell us. You will be able to ask questions at the end of his talk.

Physics, as a science, has been in crisis for the last 100+ years. This presentation will review and update the work by Common Sense Scientists Bill Lucas and David Bergman that remedy important aspects of this crisis, such as the universal force, atomic and subatomic models, and much more.

Updates at [www.tccsa.tc](http://www.tccsa.tc) All meetings free and open to the public.

### Have you considered...

...the Hoatzin. It is truly a strange bird that lives in South America. It has blue skin, red eyes and a four inch Mohawk of spiky feathers on it head. The young Hoatzins have claws on their wings so they can climb trees like monkeys. He is even an expert underwater swimmer before he can fly. But that is not the strange thing about this bird. Ninety-five percent of its diet is leaves. It is the only bird known to digest its food like a cow. Like other ruminates, the Hoatzin has a special chamber with bacteria to break down plant material. How do evolutionists explain this oddity? One evolutionary scientist who has studied the Hoatzin for decades said, "Hoatzins don't seem to follow the rules of evolution." Hoatzins defy evolutionary explanation. When God designed the Hoatzin, He designed a creature that defies any human explanation. Truly He is a creative imaginative God.

### Coming Up (Lord Willing)

July 18—Glen Collins—Artificial Intelligence and Real Stupidity

Aug. 15—Spike Psarris—Distant Starlight & Biblical Creation

Sep. 19—Russ McGlenn—Oil Is a Renewable Resource

Oct. 17—David & Mary Jo Nutting—pending

In the beginning God created the heavens and the earth. Genesis 1:1

### **TCCSA's STATEMENT OF BELIEF**

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

### **Al Heitkamp**

Heitkamp, Alfred Henry, Jr. age 89, passed away in his sleep May 1, 2023. Born April 7, 1934 in Mpls. He graduated from the University of MN BS 1956. Board member of the Twin Cities Creation Society.

Al was challenged by Walter Lang in 1968 to remember that "Adam and Eve were real people." At the time, Al was a chemist, was teaching Sunday School and about to become Sunday School superintendent at his church. His interest was captured and realized that although he was a scientist, he had received no background in this area. In 1976, he awoke in the middle of the night aware of the Lord speaking to him, saying to sell his extra business and reduce his church responsibilities in order to devote more time to the cause of creation. Al became involved with TCCSA at the time of the 1976 Conference and later joined the TCCSA Board and also the Bible Science Board. He served as TCCSA president in 1981-82 and 2003.
