## God's Clues

Tuesday November 21, 2023, 7:00 PM, Univ. of Northwestern, Totino Fine Arts Center, Room F2106

God's clues are everywhere, from the smallest DNA to the largest universe, His handiwork cannot be denied. We will cover some amazing designs that glorify our magnificent Creator. Natural processes can never produce a living organism or change a living organism into a different kind of organism. After decades of searching the universe for intelligence of any kind has proven fruitless. Only an all-powerful Creator could make it.

Brian Lauer is a creation speaker known from Minnesota to Florida and many places between. In addition to speaking he has started creation clubs on college campuses in St. Cloud and the Twin Cities. Brian is a TCCSA board member and is a key part of our organization.

Updates at [www.tccsa.tc](http://www.tccsa.tc) All meetings free and open to the public.

### Have you considered ...

The Bogong moth? It's crazy but true— Bogong moths of Australia migrate 620 miles (1,000 kilometers) by night from the plains of eastern Australia to Australia's mountainous Alps. Billions of moths make this journey to find a cave and lie dormant till autumn when they fly back, mate, lay eggs and die. Their progeny repeats the same journey without any experience or guide. Curious scientists wanted to know how the moths navigated. So, they tethered migrating Bogong moths in an outdoor flight simulator. Sure enough, the moths used the earth's magnetic field to navigate. How were the moths able to do this? Scientists are testing the idea of cryptochromes, a Greek word for hidden colors. Cryptochromes are molecules in the eyes which are sensitive to blue light and are thought to help the moth sense the magnetic field. When the magnetic field was removed, the moths were still able to navigate using the starry night. Inside the moth's brain, which is a tenth of the volume of a grain of rice and eyes which are smaller than a pinhead, is a compass to help the moth navigate. Do compasses happen by accident and chance? No, there had to be compass maker and that compass maker is God.

This year has been difficult at times but enlightening as well. In February we had Joe Taylor scheduled to speak but he went into the hospital the day before the meeting and passed away a few days later. Neil Smith was prepared for that meeting, speaking on Nimrod and the tower of Babel. Since 1996 when I took on the task of editor is this newsletter we have had 3 or 4 other speakers pass away before speaking. God is in control and He provides speakers & topics that we need to hear when He decides. Thank you for your attendance and support to keep TCCSA strong and relevant in presenting God's creation to the Twin Cities.

### Coming Up (Lord Willing)

Dec. No meeting, spend time with family & friends.  
Jan. 16—David Mikkelson—Dinosaur Fossils: Finding, Preparing, and Mounting  
Feb. 20—Mike Snavelly -Creation Around the World

### TCCSA's STATEMENT OF BELIEF

We believe in God: The Father, Son and Holy Spirit. We believe that the Bible is the inspired Word of God, and that all of its assertions are historically and scientifically true in the original autographs; this means that the account of origins in Genesis is a factual presentation of actual historical truths. We believe that the origin of matter and all basic types of living things, including man, came about through direct creative acts of God during the six-day creation week described in Genesis. Whatever biological changes have occurred since the creation week have accomplished only changes within the created kinds. We believe that the great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event, world-wide in extent and effect. We accept the account of the special creation of Adam and Eve as the first man and woman. Their subsequent fall into sin, by disobedience of God's direct command, is the basis for our belief in the necessity of a Savior for all mankind. Therefore, we believe that Jesus Christ is our Lord and only Savior and that personal faith in Him is necessary for salvation.

### This and That

This being our 50th year we have a drawing for books and DVD's at our meetings. All attendees can get a ticket at the book table to participate in the drawing. The November meeting will be the last drawing.

We have some great meetings planned for the new year. Below is a preview of the first 6 months of 2024 and each one is currently planning to be here in person.

January 16 - David Mikkelson: **Dino Bones: Finding, Preparing and Mounting**

February, 20 - Mike Snavelly: **Creation Around the World**

March 19 - Steve Law: **Location of Mount Sinai**

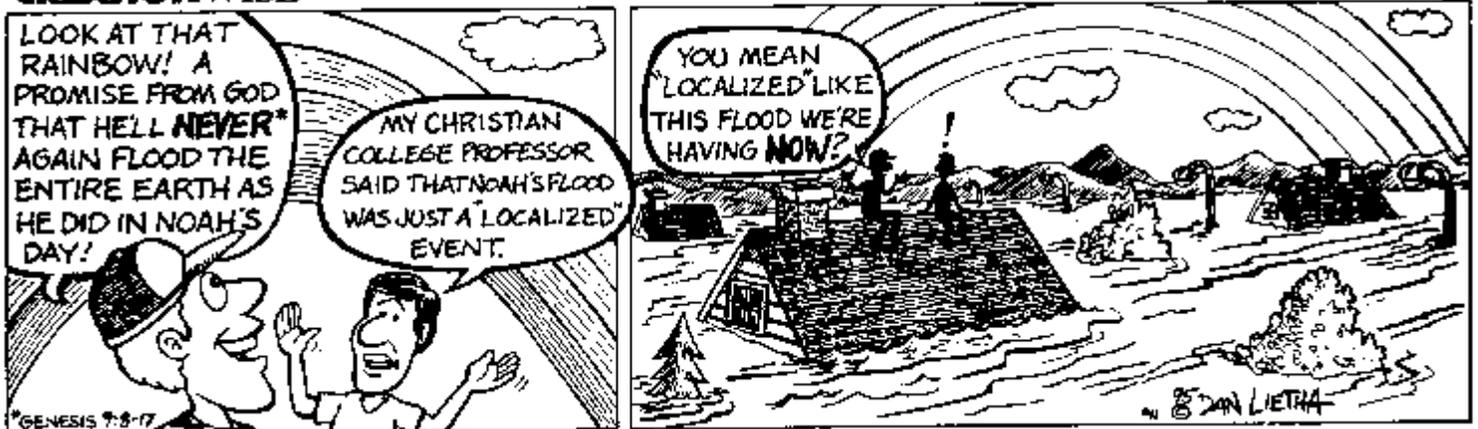

April 16 - Jay Seegert: **TBD**

May 18 - Helmut Welke: **The Ice Age in the Post-Flood Timeline**

June 18 - Don Slinger: **God's Pharmacy**

We believe these programs will help us understand the topics presented much better.

### CREATIONWISE

We're on Facebook [www.facebook.com/pages/TCCSA/110571272303973?ref=ts](http://www.facebook.com/pages/TCCSA/110571272303973?ref=ts)  
TCCSA is on Instagram: @tccsa\_tc and on Twitter: @TCCSA\_TC. **TCCSA programs are on YouTube & Rumble**—links at [www.tccsa.tc](http://www.tccsa.tc). DVDs are also available
