

2018 INTERNATIONAL CONFERENCE ON CREATIONISM

Sunday, July 29 - August 1, 2018

- Nearly fifty peer-reviewed papers by some of the world's leading creation researchers presented in the mornings and afternoons.
- Free evening presentations including Ken Ham on Sunday - *"Genesis and the State of the Culture"*

presented by Creation Science Fellowship

www.creationicc.org

Peer Review Papers to be presented!!!

Nearly fifty peer-reviewed papers by some of the world's leading creation researchers presented in the mornings and afternoons.

The conference session [schedule](#) is now available.

This conference will feature three workshops as follows:

- **Bioscience Workshop:** Where is Creation Science in identifying the Baramin (Created Kind)? The participants are as follows:

- o Moderator: Bob Harsh

[Kurt Wise, PhD](#)

[Jean Lightner, DVM](#)

[Todd Wood, PhD](#)

- o **Geoscience Workshop:** Where is Creation Science in identifying the Pre-flood / Flood Boundary? The participants are as follows:

Moderator: [John Whitmore, PhD](#)

[Steve Austin, PhD](#)

[John Baumgardner, PhD](#)

[Paul Garner, MS.](#)

[Timothy Clarey, PhD](#)

- o **Astroscience Workshop:** Where is Creation Science in establishing a Young Earth Cosmology? The participants are as follows:

Moderator: [Robert Hill, Ed.D](#)

[Russ Humphreys, PhD](#)

[Phillip Dennis, PhD](#)

[Jason Lisle, PhD](#)

[Danny Faulkner, PhD](#)

that you desire and I will gladly create a custom graphic for you.

Will you help us promote this event?

In His Service,

Steve Sobek

Executive Board Member of Creation Science Fellowship

2018 ICC Evening Speakers

The program for the 2018 ICC is developing nicely and we are pleased to announce the list of evening speakers as follows:

[Ken Ham](#) from Answers In Genesis will be the keynote speaker on Sunday, July 29, 2018. His topic will be "Genesis and the State of the Culture."

On Monday, July 30, 2017 [Dr. Kevin Anderson](#) will present a **Creation Biology Update** where he will cover the current scientific findings on soft dinosaur tissue being studied at the Van Andel Research Facility and any other findings that correlate and better explain what we see in created organisms and how they better fit the creation model.

On Tuesday, July 31, 2018 [Dr. Steve Austin](#) will discuss **Building a Machine that Deposits Mud Layers Rapidly**. His talk will focus on recent scientific findings of creation scientists and how those findings better explain and correlate with the fossil evidence and geologic formations;

On Wednesday, August 1, 2018 [Dr. Jason Lisle](#) will present **Cosmology: Evolutionary Model and Problems - Suggestions by Creation Scientists**. This talk will focus on recent scientific findings that question the current standard theory of the cosmological origin of the universe – The Big Bang. In addition, a discussion of the answers that creation scientists have for scientific findings like the cosmic background radiation and speed of light travel / time questions raised by evolutionary cosmologists.

All the evening presentations are **FREE** and open to the public.

I am asking for your help in promoting this event.
