

Prepare to Believe!

Students: Find Dinosaur Bone Soft Tissues Yourself!

(Hint: They aren't that old! Thousands of years, not millions)

**Dino Lab
on
Sept. 21st
OR
Sept. 24th**

WHAT: 3-hour intensive, hands-on dinosaur bone and soft tissue lab

- Use 2 kinds of professional microcopies: Compound & Dissecting
- Dissolve dino bone & examine: nerves, veins, blood clots, blood cells, bone cells, etc.
- Capture your work on photo & bring home on your own flash drive!
- See this 2-MINUTE VIDEO AD: <https://www.youtube.com/watch?v=jXEEBwysjic>

WHEN: Wed., Sept. 21, or Sat., Sept. 24, 2022
9-12 p.m., or 12-3 p.m., or 3:30-6:30 p.m.

WHERE: Inspired Word Church, 12825 Tucker Rd., Rogers

WHO: Dr. Mark's requirements: Students must be:

- Mature, 10-24-year-old homeschool students & homeschool graduates
- Able to focus & work for 3 hours (this is a college-level lab course!!)
- Students who lose attention or become accident prone after a period of time are not good candidates for this college-level lab
- (Disruptive behavior will result in immediate removal and parent pick-up)
- Able to handle small, fragile objects that have sharp corners and can cut if mishandled
- Able to follow instructions
- Must be at least 48" tall

COST: \$65/student—what a super bargain!!

INSTRUCTOR: Dr. Mark Armitage, world-renown microscopist, & discoverer of many different dinosaur soft tissues. His published work (some shown here) reveals dinosaur soft tissue with nerves, veins, blood clots, blood cells, & bone cells. This proves that dinosaurs are thousands not millions of years old! Coming 2,000 miles, so your students can see & discover these for themselves!

PARENTS: Sun., Sept. 18, mandatory parent(s) meeting, approx. 1:00-3:00p.m.

- We must fill Wednesday's classes first
- Registrations will be recorded on a first-come, first-served basis
- No refunds, unless someone waiting can fill your spot
