

CONFERENCE SCHEDULE

Sunday, October 5

Morning

8:00, 9:30 and 11:00 - for all ages

Dr. Mortenson in all three services

Creation vs Evolution: Why it Matters

9:30 and 11:00 - K- 5th Grade

JandY Ministries in the gym

Afternoon

2:00 - 3:00 - for all ages

Dinosaurs: Have you been brainwashed?

K-5 in the gym with Jandy

Childcare for pre-school available

Evening

6:30 - 8:30 - for Middle and High School students and their parents

How to Think About Origins

Q&A with students and their parents

No childcare available

Monday, October 6

Morning

9:00 - 11:15

For home-schooling families, and anyone who wants to have their children excused from school for the morning. This session is appropriate for all ages - including grandparents! Dr. Mortenson and JandY will co-teach the sessions.

Seven C's of History

Ape-men, Adam and the Gospel

Childcare for pre-school available

Evening

6:30 - 8:30 - for all ages

Millions of Years: Where did the idea come from?

Noah's Flood: Washing Away Millions of Years

K-5 in the gym with Jandy

Childcare for pre-school available

**ALL SESSIONS ARE FREE OF CHARGE.
THERE IS NO REGISTRATION FEE.**

John and Ynita Swomley

JandY Ministries

Did you ever wonder what happened to the dinosaurs? Are dinosaurs in the Bible? Were they on the ark? Did the places and people in the Bible really exist? Is there archaeological evidence?

We will explore the answers to these questions with JandY! Our elementary-aged kids will enjoy comedy, magic, puppets, balloons, and always.... the Word of God! These exciting sessions, designed just for them, will meet in the gym on Sunday morning and afternoon, as well as Monday morning and evening.

FALL CONFERENCE SCHEDULE

Buffalo Covenant Church sponsors a fall conference each October. We rotate through three emphasis themes: Missions, Family, and Creationism. A Missions Conference is scheduled for the fall of 2015.

Buffalo Covenant Church
1601 Hwy 25 N
Buffalo, MN 55414

763-682-1470
www.buffalocov.org

Everyone has questions.
The Bible has ANSWERS.

CREATION CONFERENCE

Sunday & Monday
October 5-6

with Dr. Terry Mortenson
from Answers in Genesis

1:1

answersingenesis.org

Dr. Terry Mortenson

With a PhD in history of geology from Coventry University in England and an MDiv from Trinity Evangelical Divinity School in Chicago, Dr. Mortenson has lectured on the creation-evolution controversy in 22 countries since the late 1970s.

Like most people, Dr. Mortenson grew up in an education system that taught evolution as fact. During his first year at the University of Minnesota and shortly after becoming a Christian, he began to see the fallacy of the idea of millions of years of evolution. His research and study led him to accept the Biblical account of Creation. He then began to write and speak on the topic across the country and around the world. Dr. Mortenson has spoken in churches, schools (primary, middle and secondary), secular universities, Bible colleges and seminaries. Several of his popular lectures have been produced as DVDs and as TV programs. He has also participated in seven formal debates with PhD evolutionary scientists in secular venues in four countries. Dr. Mortenson has worked with Answers in Genesis (Ken Ham) since 2001 and is the author of several important books on the Creation-Evolution controversy. Terry and his wife, Margie, have been married since 1976 and have five daughters, three sons, and a growing number of grandchildren.

DR. MORTENSON'S TOPICS

Sunday morning: "Creation vs. Evolution: Why It Matters" Many Christians today think that the question of origins (and especially the age of the earth) is an unimportant side issue and over which we can just "agree to disagree." But is this correct thinking? Dr. Mortenson presents some of the Biblical, theological and scientific reasons for believing that this issue is vitally important for every Christian, because what ultimately is at stake is the authority of Scripture and the Gospel.

Sunday afternoon: "Dinosaurs: Have You or Your Kids Been Brainwashed?" This popular talk demonstrates that evolutionists really don't know how dinosaurs came into existence or how they went extinct and have no real evidence that they evolved into birds. Rather the Bible gives us the truth to know how and when they were created and why we find their bones fossilized in rock layers. This well illustrated presentation will help students and adults to recognize the evolutionary brainwashing on this subject.

Sunday evening: "How to Think About Origins" This lecture challenges students to think and motivates them to become better informed so that they can more boldly witness to their friends. It explains the significant difference between operation science and origin science and the role of assumptions in the interpretation of the scientific evidence regarding origins. The goal is to exhort them to build all of their thinking on the Word of God.

Monday morning: "The Seven C's of History" "The Seven C's of History" (Creation, Corruption, Catastrophe, Confusion, Christ, Cross, Consummation) help us remember the big events in history to understand the world we live in. This illustrated presentation will engage kids and students in a lively interaction with Dr. Mortenson as they learn vital truths related to the gospel and confirming the truth of Genesis 1-11.

"Ape-Men, Adam, and the Gospel" Evolutionists work hard to convince us that man evolved from ape-like creatures, and an increasing number of theologians and other Christian leaders believe this. Consequently, some of those Christian leaders are also teaching the church that there never was a literal Adam and a literal Fall but that this does not affect the truth of the Gospel. Using both scientific evidence and the Bible, Dr. Mortenson exposes the lie of human evolution and the disastrous consequences with respect to racism, morality and the gospel as a result of denying the literal truth of Genesis.

Monday evening: "Millions of Years: Where Did the Idea Come From?" To really understand what is wrong with belief in millions of years, we need to go back to the early 19th century and study the origin of this idea. This unique and interesting lecture will clearly show that the idea was not the result of just letting the rocks and fossils "speak for themselves" but rather comes from anti-Biblical worldviews being imposed on the geological evidence. Even non-Christians will find this lecture thought-provoking.

"Noah's Flood: Washing Away Millions of Years" This lecture explains some of the Biblical evidence that Noah's Flood was a unique, historic, global, catastrophic flood. Then Dr. Mortenson discusses some of the geological and fossil evidence for this event. Included will be a brief discussion (understandable to lay people) of why Christians should not accept the millions-of-years dates derived from radiometric dating methods.

ALL SESSIONS ARE FREE OF CHARGE.

Childcare will be available for pre-school children during the Sunday morning and afternoon sessions, and Monday morning and evening sessions.
