

**Costa Rica Creation Tour** March 5-14, 2023  
Please call us ASAP to let us know your interest!

**A Once-In-a-lifetime Creation Adventure!**  
For more Information visit: [www.discovercreation.org/camps-tours/costa-rica-creation-adventure/](http://www.discovercreation.org/camps-tours/costa-rica-creation-adventure/)

**Discover Creation, Worship the Creator!**

- Witness the rainforest from a safe aerial tram (and/or a more adventurous multi-course zip line)
- Explore fabulous mangrove swamps
- Snorkel at the famous Caño Island
- Visit fabulous waterfalls
- Relax at postcard-picture beaches
- Encounter fabulous Corcovado National Park

This tour includes many of the attractions Costa Rica is famous for but also includes many that are off the beaten track and on the bucket list of even native Costa Ricans.

**Sign Up Today!**

The Dinosaur Soft Tissue Research Institute (DSTRI.org) is conducting hands-on dinosaur bone juice labs in Las Cruces, NM, January 9-14, 2023.

Students will see soft dinosaur bone cells, veins, vessels, nerves and even clotted blood in the dozens of specimens that we bring for examination under the microscope. See:

<https://youtu.be/pboxEdwHMko>

If you know of any Home School families with students ages 10-24 who would like to take this 3-hour lab and live near Las Cruces, please have them contact us through

<https://dstri.org/index.php/contact-us/>

We also hope to conduct a free Pastor's luncheon so they can see these tissues with their own eyes.

Thanks!

Dr. Mark Armitage
