The Journey of a lifetime ...

- * Explore the past as it unfolds before your eyes.
- * Professionally excavate fossil sites.
- * Identify, collect, and interpret fossils.
- * Grid, record, and document findings.
- * Analyze paleontologic evidence.
- * Compare evolutionary and creationist worldviews.
- * Participate in evening workshops.
- * Study ancient life through geology and biology.
- * Observe many sedimentary layers caused by catastrophic erosion.

T-Rex, Triceratops, Ankylosaurus, Edmontosaurus, pachycephalosaurus and Maiasaurus

We have also found fossils of plants, as well as other reptiles and aquatic animals. More than just bones, each evening, God-honoring workshops will connect the day's experiences to the life-giving word of God. The teaching, stories, and photos will be a source of vivid memories for years to come.
