

Creation Training

Living Waters Bible Camp strives to be a premier resource for creation training in the Midwest!

We desire to provide quality events and programs to help individuals understand their beliefs about creation and to express their knowledge to others in a loving and caring way.

Join us this spring as we welcome Dr. Steve Austin. Steve will deliver a series of 5 creation geology lectures that will provide you with the answers you've been looking for.

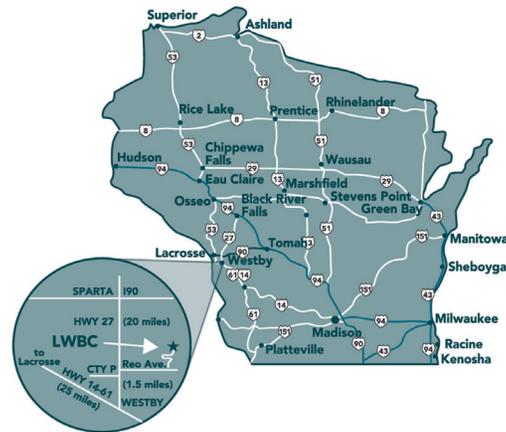

Our time will include:

- Creation Training
- Creation Museum Tours
- Worship Music
- Meals
- Snacks
- Fellowship
- Nature Hikes

Living Waters Bible Camp

A scenic year- round Christian camp nestled in a beautiful valley in southwestern Wisconsin, which displays the wonders of God's creation. At Living Waters Bible Camp, we are committed to salvation through Jesus Christ, God's Son, and making everyone complete in Christ from children to adults.

Special Field Trip Adventure

Thursday April 27

****Additional Fee****

Are you looking for hands on training? Do you want deeper answers to your flood geology questions? Join us for a special one on one field trip with Dr. Austin as we explore the unique geological formations at Devil's Lake State Park.

This trip is designed for those who want more detailed and technical explanations of flood geology.

Visit the website event page for Creation Geology Field Trip to find out more and to register.

Dr. Steve Austin

Dr. Steve Austin is a field research geologist with a PhD. from Penn State University in sedimentary geology. His research adventures have taken him by helicopter into the crater of Mount St. Helens volcano, by bush plane into glaciers in the high mountains of Alaska, by raft through the entire Grand Canyon, on horseback into the High Sierra, by elevator into the world's deepest coal mines, by SCUBA into the Great Barrier Reef of Australia, by rail into the backcountry of Korea, by foot onto barren plateaus of southern Argentina, and by four-wheel drive into remote desert areas of Israel, Jordan and Saudi Arabia. He is the author of three books, three videos, one computer software package, and more than thirty technical geology papers.
