

## Interview with Jim Orme:

What is your training?

I have a BA in Bible from Lincoln Christian College, Lincoln, IL.

I have a BS in math from Portland State University, Portland, Oregon and an MS in math from the Courant Institute of Mathematical Science, New York University, NY

What have you done of note?

I worked in space science and telecommunications for about 30 years in Bell telephone Laboratories and in Illinois Bell/Ameritech. I simulated a satellite positioned over Russian launch sites and US defensive missile systems and estimated how well we could defend against missile attacks. I also evaluated newly proposed data communications systems. I proposed, evaluated and helped write domestic and international standards for an Intelligent Telephone Network

I was elected Senior Member of the Institute of Electrical and Electronic Engineers (IEEE), the most prestigious professional society for engineers. That put me in the top 5% of engineers in the society.

Where do you currently live?

Ashland, WI

What organizations are you involved in?

I started and for six years led the Northwoods Creation Association. I now serve in an advisory role.
