

# Does Science Support Creation?

November 11-12, 2016

University of Minnesota  
East Bank

Does Science really support Darwinism?

11/11 Friday 5:30pm – Bruinicks Hall Rm 220

## “Top 3 Reasons Darwinism is Bad Science”

A presentation that covers the basic questions surrounding the theory of evolution. These include

- “Could Evolution start without a Creator?”,
- “Could Evolution actually occur according to genetics?”,
- “Did evolution actually happen in the past according to the fossil record?”

11/12 Saturday 7pm – Worship Meeting

315 10<sup>th</sup> Ave SE / Minneapolis

## “The Heavens Declare the Glory of God”

A review of some of the evidences from astronomy that Support Creation and conflict with Big Bang theory. The implications for how you look at the Bible could be profound.

(Events are Free and open to the Public. Bring your questions!)

**Speaker: Helmut Welke, MS** is a recently retired engineering manager for a Fortune 200 company. He holds BS & MS degrees from the University of Illinois (Urbana) and was named a ‘Fellow’ by his engineering society. He is a certified engineering manager and has held engineering assignments in several locations in the US and in Europe.

He is also the founder and president of the Quad-City Creation Science Association, a member of the Creation Research Society and a speaker for Logos Research Associates.

Sponsored by Maranatha Christian Fellowship & International Student Outreach.
