

Get both sides - Hear the Case for Creation!

Does Natural Selection Create New Information?

What does DNA tell us about Evolution?

How did we become Human?

April 7, 8, 9, 2016
University of Minnesota
East Bank

4/7 Thursday 7PM– Nicholson Hall room 155

“Atheism and the Origin of Life”

Atheists say they are more reasonable & are based on science. But what do the *facts* of science actually say about origins?

4/8 Friday 7PM – Nicholson Hall room 155

“In God’s Image – or Planet of the Apes?”

Were there ever any real ape-men? A multi-media review of so called human evolution including Neanderthals & Lucy.

4/9 Saturday 7PM – Worship Meeting

315 10th Ave SE / Minneapolis

“Human Genetics and the Bible”

The latest genetics and mutation research actually matches the Biblical account! What are the implications?

(Bring your questions!)

Speaker: Helmut Welke, MS is a recently retired engineering manager for a Fortune 200 company. He holds BS & MS degrees from the University of Illinois (Urbana) and was named a ‘Fellow’ by his engineering society. He is a certified engineering manager and has held engineering assignments in several locations in the US and in Europe.

He is also the founder and president of the Quad-City Creation Science Association, a member of the Creation Research Society and a speaker for Logos Research Associates.

Sponsored by Maranatha Christian Fellowship & International Student Outreach. Contact Rob at hatch133@umn.edu for more information.
