ORIGINS OF MAN

This talk takes a look at the origins of man and a look at evolutionary lack of evidence. Subjects include: we all look at the evidence in different ways (same evidence-different bias), human evolution chart, Neanderthal man, Ramapithecus, Java man, Australopithecus (Lucy), Laetoli ash fields, Piltdown man, and Nebraska man. A goal here is to teach children to recognize artwork and to ask the question, "What's the Evidence?" The evidence does not point to evolution, but to Biblical Creation as the better answer! With adult audiences may also include a short talk about how old is the earth and problems with the dating methods used today.

Lanny and Marilyn Johnson are former evolutionists trained in the sciences. Creation teaching was instrumental in bringing them to a settled assurance that all of God's Word can be trusted. In 1993, God led them to join Alpha Omega Institute and establish the Children's Ministry to fortify children with the truth of the Bible and to help them avoid the pitfalls of evolution.
