Trade Secrets of Evolution

**University of North-
western St Paul,
3003 Snelling Ave. N.
Roseville MN 55113
Nazareth Great Room**

Every discipline has skills and knowledge that is held back and only known by those fully trained in that discipline. Evolution is filled with problems which are suppressed and ignored even though they are known by experts in the field. This talk looks at the "trade secrets" from various scientific fields which show that cosmic, chemical, and biological evolution could not possibly be true.
